REQUEST FOR EXTENSION OF TIME

Department of Water Resources To provide additional time in which to submit proof
of beneficial use for a water right permit

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right under the provisions of Section 42-204, Idaho Code.

Permit No. 29-7257

Name(s) of Permit Holder: Max Curtis & Joy B. Jewkes

Post Office Address: 25319 So. Marsh Valley Road

Downey, Idaho 83234 Telephone No. 897-5914

Date Proof is Due: 1 May 1990

Describe what work has been completed toward the development of this water right: A 12" Well has been
(This must be filled out! If no work has been completed, show "none".)

drilled and cased and sufficient water has been found for irrigation purposes. We will place
a pump in the well and develop an irrigation system for as many acres as we have water.

Costing \$7000.00 (so far)

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:
The local power company indicated to us before we drilled that they had had other requests and would be putting three phase power into the area in the near future. They have not as yet done this. We only have 2 phase power, and it is not sufficient to run a large submersible pump. We plan to finish the project as soon as the power is available. We are a party to the litigation of the Idaho Power Company vs Idaho Department of Water Resource, Case #81375.

Permit holder(s) request an extension to 1 May, 1995.

RE: PERMIT NO. 29-07257

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

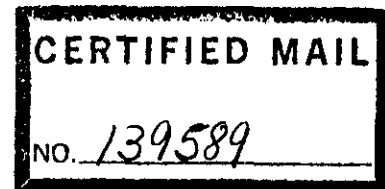

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

Dear Mr. and Mrs. Williams:

RE: Permit 29-7257

Enclosed is the Request for Extension of Time submitted to this office on March 20, 1985, along with your check, No. 1857, 92-158/1241, in the amount of \$15.

Idaho Code, Section 42-204, limits the Director to approval of only one extension request based on due diligence. The first request for an extension of time was approved in June of 1980 extending the proof due date to May 1, 1985.

However, an additional extension of time may be considered for approval by the Department if the permit holder has been prevented from proceeding with the work in developing the permit by a government agency or by litigation.

You state on the extension request form that you are negotiating with the local power company to bring in three-phase power sufficient to run a large submersible pump in place of the two-phase power available. It is this statement that needs further clarification.

If your negotiations with the power company has delayed you in proceeding with the work, it will be necessary for you to provide us with a proper showing and convincing evidence of the existence of any such condition before the extension will be acceptable for the Department to take action.

In order for us to act officially on your extension request, please return the form and the check with the requested information on or before May 1, 1985. If you have any questions about the requirements, please do not hesitate to contact us.

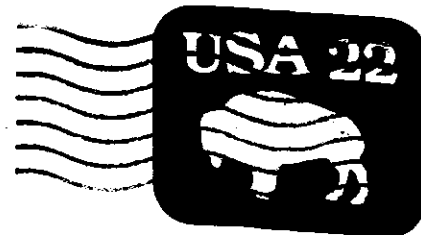

Sincerely,

ROBERTA GARRETT
