WATER RIGHT LICENSE

License of Water Right No. 29-7199 Priority June 4, 1974 Amount .14 cfs

THIS IS TO CERTIFY, that JEANIE RINO
of Pocatello, Idaho, has complied with the terms and conditions of Permit
No. 29-7199 issued pursuant to Application for Permit dated June 4, 1974,
and has submitted proof to the Department of Water Resources on July 31, 1979,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of .14 cfs of water from Lower Rock Creek,
tributary to Portneuf River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>April 1</u> to <u>November 1</u>	at <u>.14 cfs</u>	<u>35 acre feet</u>
	from _____ to _____	at _____ cfs	_____
	from _____ to _____	at _____ cfs	_____

(both dates inclusive)

Subject, however, to the condition that no more than .14 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confined for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
35 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, Twp. 7S,
Rge. 36E, B.M. in the County of Bannock

Description and location of place of use:

Total number of acres irrigated 10

Use of water under this license is subject to control by the watermaster of State
Water District No. 29, Portneuf River.

A lockable device subject to the approval of the Department shall be maintained on
the diverting works in a manner that will provide the watermaster suitable control
of the diversion.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 24th day of
April, 19 81.

Dear Ms. Rino,

A representative of this Department has made an examination of the works covered by your Permit No. 29-7199, and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: .14 cfs Source: Tower Rock Creek

The maximum quantity diverted shall not exceed 35 acre feet per year.

Point(s) of diversion: SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, Twp. 7S, Rge. 36E, B.M.

Beneficial use: Irrigation of 10 acres within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, Twp. 7S, Rge. 36E.

Priority date established: June 4, 1974

Conditions (if any): Use of water under this license is subject to control by the watermaster of State Water District # 29, Portneuf River.

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

JIM JOHNSON

Dear Ms. Rino:

One of the conditions of approval of your water Permit No. 20-7100 was that evidence of the extent of development must be submitted to this office on or before September 1, 1979. (See last page of your approved permit). Enclosed is a post card which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use post card or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect within 60 days.

Sincerely,

RITA FLECK
Sr. Secretary

Dear Wateruser:

The enclosed Order removes the measuring device requirement as a condition of approval from your permit.

If you have installed the measuring device, the field examination can be more expediently conducted by the Department's field examiner as well as you will derive benefit from water management information which may be obtained from the installed meter.

of Application for Permit No. 29-7199	)	NOTICE OF CONFERENCE
	)	
in the name of JEANIE RINO	)	AND/OR HEARING
	)	
	)	

On June 4, 1974, Jeanie Rino filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On June 26, 1974, the Department received a protest against approval of said application from Keith C. Christensen. On June 28, 1974, the Department received additional protests from Arla M. Lish and David Lish; and on July 1, 1974, from H. H. Phillips.

The Department has set the matter of protests for conference and/or hearing for Monday, September 9, 1974, at 9:30 a.m., at the Community Center, Lava Hot Springs, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved. Because of the similarity of the issues involved in the protests to Applications No. 29-7204 - David H. Lish, and No. 29-7199 - Jeanie Rino, the Department proposes to consolidate the conferences and hearings as provided in rule 9.7 of the Department's Rules of Practice and Procedure.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 23rd day of August, 1974.

Dear Sir:

I am writing this letter of protest to the application of water Permit #~~29-7199~~ filed with your office by Jeanie Rino.

It is my contention that there is not sufficient water for this permit to be awarded. I base my contention on the fact that any water that is in excess of Mr. H. H. (Pete) Phillips decreed water right belongs to me, Keith C. Christensen to be used for the irrigation of forty (40) acres located in section 35 Township 7, South Range 36 East. This water having been used to irrigate this ground since approximately 1930.

I also know it to be true that there is not sufficient water for my irrigation of this forty acres in the later part of the summer and fall. Therefore, I feel that granting this water permit would purpose a serious hardship to me in maintaining the present condition of my crops and land.

Also beigns Mrs. Rino having recently purchased her ground and no water having ever been used on this ground should not be awarded this permit and deprive me of the use of this water.

Sincerely

Keith C. Christensen

Dear Mr. Phillips:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,

NORMAN C. YOUNG

Dear Mr. Christensen:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

Re: Application for Permit No. 29-7199

Dear Ms. Rino:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 29-7199. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required. (Section 42-202, Idaho Code)

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Very truly yours,

NORMAN C. YOUNG
District Engineer
