Dear Mr. & Mrs. Christiansen:

One of the conditions of approval of your water Permit No. 29-7195 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

RE: I called the Parkers' to clarify whether they intended to protest this
application for permit. Mrs. Parker responded that because they had been assured
by us that the application was for ground water in our letter of June 24, 1974,
they had no intention of protesting the application. She asked that their
written protest on June 15, 1974, against appropriation of Pocatello Creek water be
disregarded.

Dear Sirs.

Pocatello, Idaho
June 15, 1964

Due to so many illnesses and etc
we have not had access to any papers
since the 16th of April, but we have been
advised that a merlin Christianson
has applied for water for both home
use and irrigation - we must protest
this as, if he takes that much water
from Pocatello Creek there would be none
for those of us that have the water
right, for stock that depend on it. The
rest of us put in a well for house hold
& lawn use but we do have animals
on our back fields that must have the
water - and as it is by July & August
the creek only has very very little water
in it.

Sincerely
Delbert E. Barker
