SUBJECT PERMIT NO. 29-7184 ROBERT W. FELD

Department of Water Resources

Mrs. Feld called this date and requested that the Department attempt to setup a schedule for irrigation between Mr. Herrman and themselves. I told her that even if we had the ability to compose such a schedule, there would be no way we could administer it. She then replied that she would get affidavits signed saying that Mr. Herrman had not used the water prior to 1971 as proof that he does not have a water right and send them to us. WHAT SHOULD WE DO THEN???

Ron - SCS does some of this type of scheduling.

I don't think we can do much more than what you have done by letter.

Any affidavits Mrs Feld sends should be filed in this file or with Mr Herrman claim if he files one Bob

Mr. Alfred A. Herrman
Star Route, Box 48
Pocatello, ID 83201

Dear Mr. Herrman:

It has been brought to our attention that you are pumping water for the irrigation of 17 acres of land from Michaud Creek. We have checked our records and find no evidence of a water right under which you are appropriating this water. You indicated in our telephone conversation today that such an application was suppose to have been filed by your attorney. The fact that we have received no application and that you do not have an approved permit suggests that this appropriation is contrary to the Idaho Code. In a civil action, you can be held liable for any damages caused through this appropriation. Therefore, it is important that you discontinue pumping until such time as you have taken the action necessary to obtain an approved permit from this Department.

If we can assist you in this matter, please feel free to contact us.

Very truly yours,

RONALD D. CARLSON
Asst. to District Engineer
