Department of Water Resources

Dear Mr. Rhoads,

Sorry it has taken me so long to send you a map. Your letter arrived about the time my father past away. It has taken me this long to get my head on straight.

There are no roads following our ditch. There is however a road beside the Church Lateral Canal. You can reach this by going west ~~of~~ on Chubbuck Rd. to Rio Vista. Right on Rio Vista about .6 mile (past trailer court). Rio Vista crosses over the Church Lateral Canal.

Please, if you prefer, call us and we will take to the ditch.

My number is 237-5520, my brother-in-law's is 237-1923.

Please don't hesitate to call because we would like this finalized too.

Sincerely,

Mrs. James Roeder

Gentlemen:

Recently, personnel from this office was in the Pocatello area for licensing of water right permits.

Our examiner was unable to locate the diverting works listed under Permit No. 29-7177. To assist our personnel in locating the point of diversion and place of use would you please submit a map showing routes and/or roads leading to the property listed under the above referenced permit. Also, if you are not living at the site, please indicate the name of the individual he is to contact for an appointment to do this field exam.

We are planning further field work in the Pocatello area during the middle part of August. If we have the above information by that time, we will be most happy to finalize the action on the permit and issue a water right license.

If you have any questions concerning this matter, please feel free to contact me.

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Idaho Falls.

Gentlemen:

One of the conditions of approval of your water Permit No. 29-7177 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

We are returning your check No. 92-111 in the amount of \$10.00 and a new application. Please sign the application on page 3 exactly as your names appear in Item 1, if everything is satisfactory.

P
In Item 2 of the application, we have omitted the Church Lateral Canal of Fort Hall Irrigation for your source of water supply. This Department can only accept one source of water per application. We assume that the Church Lateral Canal is merely the means by which you will transport the irrigation water to your property.

V
In Item 4, we have changed the acre feet description which are used primarily for storage designation to cubic feet per second calculation. Also, we have changed the dates of use to what is more acceptable to use in your area.

Please return the signed application and the statutory filing fee of \$10.00 to this office so processing can commence.
