Dear Mr. Winward:

We have received a well drillers report indicating that a well was drilled for you in the NE1/4SW1/4, Sec. 17, T. 8S, R. 35E, B.M., Bannock County.

A review of our records indicates that you have not filed an application for a permit to appropriate the public water of the State of Idaho. Since March 25, 1963, an application has been required prior to construction of a well and a valid permit must be obtained before ground water may be diverted. The only exception to this requirement is a well drilled for stock-watering or single family household use and water used for all other purposes, including irrigation of one-half acre of land in connection with the household use where the total use does not exceed 13,000 gallons of water per day.

If you have already filed an application, which we over-looked in the review of our records, please advise us of the number of the application or the name under which the application was filed. However, if you have not yet filed the required application, you should do so as soon as possible. You may obtain the forms upon request from this office.

If you have any questions regarding this matter, please contact this office.

Very truly yours,

Dear Mr. Goodwin:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Idaho Falls.

Dear Mr. Goodwin:

One of the conditions of approval of your water Permit No. 29-7166 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Bishop A. LeRoy Goodwin
Wraft Road
Pocatello, ID 83201

Dear Bishop:

We are returning your application for permit to appropriate ground water in Bannock County, as there is a \$10.00 filing fee which must be received with the application before it can be processed. The application appears to be in satisfactory form except that the following should be clarified:

1. The legal description of the point of diversion and place of use is listed as the SW¹/₄SE¹/₄, Sec. 17, T. 4S, R. 35E, in Bannock County. However, this legal description would be in Bingham County near Fort Hall. Please check your deed or other legal instrument to clarify the legal description.
2. The rate which is to be diverted must be listed in Item 4 & 5. State law limits the rate of diversion to .02 c.f.s. per acre unless a higher rate can be justified by coarse soils or unusual irrigation systems. Thus, for the 3 acres a diversion rate of .06 c.f.s. would be appropriate.
3. The name of the applicant in Item 1 should indicate that the filing is made by you and your title should be indicated. Your title should also appear with your signature on page 3.

Please make the necessary changes to the application and return it to this office with the required filing fee and we will be happy to continue processing it.

Very truly yours,

NORMAN C. YOUNG
