Re: Permit No. 29-7094

John M. Dudanke
Route 3 South, Box 250
Pocatello, Idaho 83201

Dear Mr. Dudanke:

One of the conditions of approval of your water Permit No. 29-7094 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

RE: Application No. 29-7094
Department of Water Resources

FROM: Norm Young

DATE: October 19, 1972

A Mr. Antone Aguilar of Blackrock, Idaho, visited this office today to complain about the applicants of the above listed application drilling within 100 yards of his domestic well. I explained to Mr. Aguilar that the protest period was up and that the application may have already been approved, as it has been sent from this office to the state office.

It might not be a bad idea to put a restriction that the new well is not to be drilled within 500 feet of an existing well, provided of course that we have not already approved the application.

I informed Mr. Aguilar of the provisions of the local ground water board, and that he has not lost all chances to protect his older use right.
