RE: PERMIT NO. 29-7059

Dear Vern:

I tried to call you yesterday morning to tell you that I checked your file on permit no. 29-7059. We need to have you complete the enclosed affidavit form by which you indicate to us that the work is complete and ready for inspection by the department. It is unlikely that our field people will get to your well this fall, so I suggest if you are through irrigating that you shut the pump off and we will check it during the next irrigation season. Be sure to return the affidavit to us before the proof due date which is October 1, 1976.

If you have any questions, please let me know.

Very truly yours,

R. KEITH HIGGINSON

Dear Mr. Moser:

One of the conditions of approval of your water Permit No. 29-7059 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Sirs:-

Concerning permit # 29-7059
which you inform me has
lapsed and cannot be reinstated
except by showing reasonable cause,
please be informed that the well
and sprinkling system has been
in operation for 5 years and that
everything has been complied with
as far as I have been able to
determine, except for a water
gauge to determine the S.P.M.
of the pump.

I have contacted the Jorgensen
Co. who installed the system and
told them I needed a gauge and
they were to have installed one
before the irrigation season was
over this fall, this however has

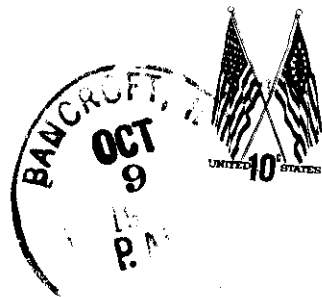

not been done.

I have therefore contacted them again and requested that they install a gauge before we begin sprinkling next summer & they have assured me this will be done.

I am therefore requesting that you grant me until next June to complete this at which time I can furnish you the gallonage of the pump.

Sincerely yours
Vernon E. Mow

Dear Sirs:

You will please note a
new location for the well. The
place which I first chose
did not produce any water
but the new well shows
indications of a good
supply. The contractor, Mr.
Bortz has drilled to 65 ft.
and has found a good
supply and hopes to go to
100 to 150 ft and is sure
there will be ample water for
the place. Please show
the new location which I
have chosen. Thanks Very.
