Dear Mr. Sorensen:

A license can only be issued for the amount of water you were using at the time of the field examination. Our examiner found 1.32 cfs being used which is the amount proposed on the license for Permit No. 29-7056.

If more water is necessary, a new water right must be applied for listing the extra water for the same land. This filing would then bring your water rights up to an inch per acre for each acre of land. We are enclosing a partially completed application for permit form for your review.

If we do not hear from you concerning this license within 10 days, we will issued the license as set forth in our February 6, 1978, letter.

Sincerely,

Dear Mr. Sorensen:

Permit No. 29-7056 would include the $W\frac{1}{2}SW\frac{1}{4}$ (76 acres) and the $SE\frac{1}{4}SW\frac{1}{4}$ (39 acres) when licensed.

You now have a License No. 29-2332 which already covers the $SE\frac{1}{4}$ as follows: $NE\frac{1}{4}SE\frac{1}{4}$ (15 acres), $SE\frac{1}{4}SE\frac{1}{4}$ (32 acres) and $W\frac{1}{2}SE\frac{1}{4}$ (80 acres). Any new development over the acres licensed in the $SE\frac{1}{4}$ must be applied for by filing a new application for permit. The lands to be licensed under Permit No. 29-7056 cannot be expanded to include the new acreages as that would be an expansion of the water right.

If we do not hear from you regarding the licensing of Permit No. 29-7056 within 15 days, we will proceed to issue a license based on our previous letter.

Dear Mr. Sorensen:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit. Enclosed please find an Order of Reinstatement; you will note that the reinstatement is subject to the installation of a measuring device by the 1972 irrigation season.

Before a license can be issued, a field examination must be made by a representative from this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Dear Sir

RECEIVED

Oct 25 1971

Department of Water

In regard to permit no 29-7056 I hope finally located a company that may have that may work on my water system - but I'm not able to have this completed by this time. Due to cost and etc. I'll have to uncouple my main line, and they won't give me a definite time that they'll come. So I'm requesting and I'm extension on this permit - which time I hope I can have this meter installed. Hoping you will understand my request. If one of your engineers are down this way, have them stop in.

Yours Respectfully

Mr. Woodrow W. Sorensen
Swan Lake,

Dear Mr. Sorensen:

We are in receipt of your affidavit submitted as proof of beneficial use for Permit No. 29-7056. However, in reviewing that affidavit, it appears that you have failed to install the measuring device as required by the conditions of approval of your permit and by Section 42-701 of the Idaho Code.

We cannot accept your proof and issue a license unless you have installed a measuring device of a type approved by the Department. We will hold your affidavit until you can supply us with information as to the type of measuring device installed. You should be aware that failure to install the device and supply information as to the type of device installed may result in the loss of your permit. We will withhold action regarding your permit until October 16, 1971.

We are enclosing a list of the types of measuring devices approved by this Department. If you have any questions regarding this matter, please contact us.

Very truly yours,

Re: Permit No. 29-7056

Dear Mr. Sorensen:

One of the conditions of approval of your water Permit No. 29-7056 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
