Dear Mr. Hurst:

One of the conditions of approval of your water Permit No. 29-7055 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Hurst:

We are returning your personal check in the amount of \$10.00 and your application for permit. We are unable to process the application in its present form due to lack of information. We have taken the liberty of typing the information from your original application, and have indicated on the typed form where additional information is required.

We assume the source of water supply to be ground water. We will require under item 3a, the point of diversion to be identified to a 40 acre tract of the public plan survey system. If your place of use, as indicated under 8b, is in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 28, T. 6 S, R. 35 E BM, and the well is drilled on the 5 acres in question, then, we would assume that the point of diversion would be the same. If so, please enter this information under 3a.

We would recommend that under item 4, the quantity of water for irrigation be .10cfs from May 1 to September 30, and that .02cfs for domestic use from January 1 to December 31, with a total appropriation of 0.14cfs. We will also require that a map be entered under item 11, showing the point of diversion, place of use by government survey, subdivision, Section, Township, and Range.

If we can be of further assistance, please contact us.

Very truly yours,
