Dear Mr. Noble:

Enclosed please find a copy of the approved application for amendment in connection with the above referenced permit.

A representative of this Department has made an examination of the works covered by your Permit No. 29-7040 and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 0.02 cubic feet per second

The maximum quantity of water diverted shall not exceed 14 acre feet per season.

Beneficial Use: Stockwatering purposes within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 14,
T. 8 S., R. 36 E., B. M.

The priority date established is: November 18, 1969

If you do not concur with these findings, please advise us within 10 days of the date of this letter; otherwise, a license will be issued as set forth above.

Dear Mr. Noble:

An examination has been made to determine proof of beneficial use under the above referenced permit. The examiner's report indicates that the point of diversion is in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 14, rather than the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 13 as indicated on the permit. This location was determined from aerial photos obtained from the A.S.C.S. office in Pocatello. The fence that separates the point-of-diversion from the place-of-use does not appear to be on the section line.

Please recheck this location and if your finding agrees with that of our examiner, complete the enclosed application for amendment and return it to this office. A \$10.00 filing fee is required for amendments.

Dear Mr. Noble:

One of the conditions of the approval of your Permit No. 29-7040 was that proof of application of the water to beneficial use be submitted to this office on or before February 1, 1971.

Enclosed is an affidavit form which must be used to submit proof of beneficial use. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended.

Either the proof affidavit or a request for extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Noble:

We are enclosing copies of your approved applications for permit Nos. 29-7039 and 29-7040, in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

Be sure to note that on your permit No. 29-7039 a special condition requiring you to install and maintain measuring devices at your point of diversion has been placed on that permit. We are enclosing a letter describing different types of measuring devices accepted by this office. Section 42-701 of the Idaho Code requires adequate control facilities for the watermaster. This also includes the ability for the watermaster to lock the headgate or diverting structure at any given position. If you have any questions on this matter, please contact your watermaster at Lava Hot Springs, Idaho.

If you have any questions or do not understand the above conditions, I would be most happy to discuss the situation with you.

Gentlemen:

This is to acknowledge receipt of the affidavits of publication for the above referenced applications for permit.

As you did not submit a bill for payment, may we ask that you do so as soon as possible. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Your prompt attention to this matter will be appreciated.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
