Pocatello, Idaho 83201

Dear Mr. McCarty:

One of the conditions of approval of your water Permit No. 29-7027 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. McCarty:

Please be advised that if you wish to add a point of diversion to that existing under the above permit, you will be required to file an application for amendment to include this point. Also if you wish to obtain an extension of time, please be advised that the department follows the policy of allowing only one extension of time for a period of five years. If you file your application for extension of time before May 1, 1970, this will give you an additional year or until 1975 if the extension request is approved. We have enclosed both amendment and extension forms. There will be a \$5 filing fee required for the amendment.

If we may assist you further, please contact us.

Dear Sir:

Enclosed find Photostatic copy of construction log or REPORT
OF WELL DRILLER filed by Arnold Lundstrom 441 So. 11th Ave
Pocatello, Idaho, Drillers Lic. # 118.

The well constructed was on my property at Pocatello, Idaho
under permit and Identification # 29-7027, located on described
land as Lot # 3 Facer Mtn. Drive, Near Street as the $\frac{1}{2}$ S.E. $\frac{1}{4}$
SE. $\frac{1}{4}$ SW $\frac{1}{4}$ as a home site and five acres of land.

The well constructed did not yield enough water for culinary
and irrigation use both. Therefore would like an extension of
time to either deepen well or construct an additional well
to bring total water appropriated from underground source to
fill required minimum needs.

Would you please notify me of maximum time that can be allowed
and any other particulars that you may need.

Proof of Construction date is May 1, 1970 on Permit # 29-7027
an additional time of May 1, 1974 would certainly be appreciated.

Sincerely Yours
