Dear Mr. Perkins:

One of the conditions of approval of your water Permit No. 29-7025 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Mr. Wayne Perkins
Bancroft, Idaho 83217

Dear Mr. Perkins:

It has been brought to our attention that on or about February 2, 1965, you had a well drilled. The well is reported to be located at a point in the SE 1/4 SW 1/4, sec. 25, T. 7 S, R. 38 E., B.M. for Irrigation use.

A search of our records has failed to find your application or approved permit. Under existing Idaho Statutes, Sections 42-226, 42-229, and 42-230 of the Idaho Code, you are required to file and obtain an approved permit before you divert waters from a subterranean source, with the exception of domestic wells which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the department as to your permit number. However, if you have not yet filled out an application for permit, please use the instructions and the blank application form which we have enclosed.

We will be very happy to assist you with any questions you might have.

Very truly yours,

Donald W. McEldowney

Dear Mr. Perkins:

We are in receipt of your application to appropriate the public waters of the State of Idaho and your check in the amount of \$30.00. Before further action may be taken on your application, we require clarification on the following issues.

The land you have listed under Item 8b of the application, the SE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, sec. 25, T. 7 S, R. 38 E, B.M., do not correspond with a map you have listed under Item 11. Enclosed is a township plat for Township 7 S, Range 38 E, B.M. You will note that in section 25 we have shaded in three squares. The three squares that are shaded indicate the areas you have inserted under Item 8b. Each square represents 40 acres.

If the shaded areas represent your proposed irrigation, please advise us. If, however, we misunderstand which 40-acre tracts you intend to irrigate, please advise us as to the correct lands to be irrigated. You may do this by marking an "X" in each of the squares you intend to irrigate under the application.

After verifying the information, please return the plat to us so that we may make the correction on the application and continue processing. Your assistance in this matter is appreciated.

Very truly yours,
