Dear Mrs. Owens:

One of the conditions of the approval of your permit
29-7020 was that proof of application of the water to
beneficial use be submitted to this office on or before January 1, 1970.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

American Falls, Idaho

Dear Mr. Owens:

Thank you for your letter of October, 1968. The Department of Reclamation has received your application for permit and your check in the amount of \$10.00, however, until we receive some clarification of the information in your application we can not continue processing your application.

Under Item 4 you have listed the only use for the water from the subterranean source as a domestic purpose for a period of ~~one~~ from January 1 to December 31 of each year. However, under Item 8b of the application you have listed the irrigation of one acre of ground.

If this one acre consists solely of lawns, please advise the department. If this is a pasture, commercial garden, or other agricultural irrigation, you are requested to instruct the department to insert under Item 4 of the application an irrigation use and a period during each year in which you intend to irrigate. This would be a month and day in the spring to a month and day in the fall along with the quantity of water you intend to ~~use~~ for irrigation. We assume that a portion of the 0.03 cubic feet per second you have requested would be appropriated for irrigation under these circumstances. The maximum which would be allowed for irrigation would be .02 cubic feet per second per irrigated acre.

Your prompt attention to this matter is appreciated.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
