Dear Mr. Fuhrman,

A representative of this Department has made an examination of the works covered by your Permit No. 29-7017, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: .02 cfs Source: groundwater

The maximum quantity diverted shall not exceed 1.4 acre feet per year.

Point(s) of diversion: NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 12, Twp. 11S, Rge. 36E, B.M.

Beneficial use: Stockwater use within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 12, Twp. 11S, Rge. 36E.

Priority date established: June 17, 1968

Conditions (if any):

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

JIM JOHNSON

Dear Mr. Fuhrman:

One of the conditions of approval of your water Permit No. 29-7017 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Fuhriman:

If you desire to change Application No. 29-7017 to stockwatering purposes and to delete the irrigation provision, you could propose the change by means of an amended application which would need to be republished at your expense before we could evaluate whether or not the proposal could be approved.

As to your ground in Section 35, you should file a new application for permit on this ground. The existing permit application would probably be other than acceptable if an amendment was proposed changing to lands such a distance from the original land.

We are enclosing these application forms for your use in filing on the ground in Section 35 and making any changes in Application No. 29-7017. Please contact us, if we may be of further assistance.

Gentlemen:

I have drilled a 16" well 130' deep which we have tested and shows enough water to irrigate 160 acres in the SE $\frac{1}{4}$ of Sec. 35, T. 10-S, R. 36E and NE $\frac{1}{4}$ of Sec. 2, T. 11-S, R. 36E. This well is located in the SW $\frac{1}{4}$ of SE $\frac{1}{4}$, Sec. 35, T10S, R-36E.

Engineer's estimate shows we will use 4500' mainline, with 4 quarter mile sprinkler laterals with a 100 HP turbine.

I would like to install this system this fall in order that I might start pumping next spring.

In June of 1968 I filed an application which was given the number 29-7017 to drill a well in section 12 of township 11 south, range 36 east to divert 2.4 second feet of water for irrigation use. This well was drilled and when tested there was not enough water for irrigation, however, there is enough for stock water which I use as such. Was wondering if possible to transfer the fees or application from this well to the other well.

Will appreciate your letting me know what is necessary to comply with regulations to go ahead with this pumping project.

Dear Mr. Fuhrman:

O
In June of 1968 you filed an application with this office which has been given the number 29-7017. The application proposes to drill a well in section 12 of township 11 south, range 36 east to divert 2.4 second feet of water for irrigation use.

P
Perhaps you are aware that approximately a mile from your proposed well location there is a spring that has been the subject of court action and is now being considered by a local ground water board. The owners of the spring contend that the drilling and pumping of a well on property near yours has resulted in the decreased flow of the spring. Until this matter has been fully reviewed and a decision reached by the ground water board we are reluctant to proceed with approval or rejection of your application.

Y
Should you have any questions concerning this we would be most happy to answer them. Without receiving formal rejection we will hold your application in abeyance for at least the next 90 days.
