Dear Mr. & Mrs. Firkins:

A representative from this department has made an examination of your works covered by Permit 29-7003. The works were found capable of producing .02 c.f.s. of which .02 c.f.s. can be recognized as beneficially used and licensed under Idaho law. The water is used for domestic use in SE 1/4, Section 19, Twp. 6S, Rge. 35E, B.M.

If you disagree with the findings, please advise us within 10 days; otherwise, a license will be issued showing the findings as set forth in this letter.

Dear Mr. and Mrs. Firkins:

One of the conditions of the approval of your permit 29-7003 was that proof of application of the water to beneficial use be submitted to this office on or before December 1, 19 68.

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. & Mrs. Firkins:

In reply to your question concerning our letter of August 30, 1967, the statement made in our letter indicates that the permit would be issued for a minimum of 12 months, within which time you are required to submit to the State Department of Reclamation evidence that your system is installed and has been put to beneficial use. Following this, the department would make a field examination and issue a license. The 12 month period would start as soon as the permit is approved.

Please contact us if you have any further questions on the matter.

Dear Mr. & Mrs. Firkins:

We are returning your application to appropriate the public waters of the State of Idaho.

Your application will not be acceptable until it is submitted complete, and with the required statutory fees. The fees required are determined by the quantity of water. A fee schedule is enclosed attached to the instruction sheet.

Under question 4 you are requested to list the quantity of water appropriated. Normally the department allows water for domestic purposes not in excess of 0.02 c.f.s. which equals about 13,000 gallons per day.

Under question 5 you have listed domestic use. The dates entered in this section are on a yearly basis and should be the period during each year that you use the water. In most cases, domestic water is used from January 1 to December 31; however, if you have a particular time of year that you are not using the water, please indicate on your application.

Although your system is already completed, the application, if approved, would be approved for no less than one year.

Please correct the discrepancies, returning the application with the correct fee.

Very truly yours,
