The reasons for my delay in returning the notarized form and enclosed material have been centered around weeks of trying to locate Sterling Symund, my original well man, and Mr. Ernest Garrett, who provided our home loan for building. In lieu of their affidavits, I submit the enclosures, including zero copies of the home loan agreement (1962), a microfilm map of our subdivision with location of well marked, and a notarized statement of a long-term Mink Creek resident. I hope you can add these to my file in case it is ever needed in the future.

Dear Ms. Hilzman:

Please find enclosed several affidavit forms and a retyped claim form. On this revised form, we have omitted your claim to irrigation waters as per our telephone conversation on March 3, 1977. As not to further delay the processing of your claim we will begin advertising it in a local newspaper immediately. Please have your signature notarized on the back of the claim and have the Keller's notarize their signatures on the affidavit.

A claimant may submit any type of evidence in support of his/her claim. A valuable addition to the claim file is an affidavit from a disinterested individual who is aware of the first use and extent of the claimed right. An affidavit should set forth the basis of the claim and describe fully first hand information regarding the water right claimed. Many individuals also file copies of aerial photos, maps, copies of power records if a pump is involved, copies of measurements made by qualified individuals and any other type of information in support of the claim.

Dear Ms. Hilzman:

We have received and reviewed your claim to a water right. We have returned to you your claim and check No. 92-159 in the amount of \$10.00 and request that you fill out another claim form with the following changes and then resubmit the fee.

Under Item 1, enter ground water instead of well.

Under Item 2, for domestic use you are allowed 0.04 c.f.s. (cubic feet per second.) Enter 0.04 c.f.s. for the amount, enter domestic for use and Jan. 1 to Dec. 31 for period of use. If you are irrigating all or part of your three acres, the maximum amount of water you are allowed to use by law is 0.02 c.f.s. per acre (one miners inch/acre.) Multiply 0.02 c.f.s. times the number of acres you actually irrigate and enter the product for the amount. Enter irrigation for use and March 15 to Nov. 1 for the period of use, as this is the recommended irrigation season for your particular location.

Under Item 3, add the amount of water claimed for domestic use (0.04 c.f.s.) to the amount used for irrigation which you have calculated above in No. 2, and enter the sum in c.f.s. Leave acre feet per annum and gallons per minute blank.

Under Item 4, enter your priority date of April 4, 1963.

Under Item 5, enter the legal description of the location of your well. Our research has determined that description appears to be the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 30, T. 7S, R. 35E, B.M., County of Bannock. Leave additional points of diversion blank.

In Item 6, describe location of use by listing the number of irrigated acres within each 40-acre tract in the appropriate box. If use is not for irrigation, place an "x" in the appropriate box to show location. Under Item 6(B) please indicate the amount of families to be supplied with domestic water.

Dear Mr. Higginson:

Please file my claim to water rights. I am enclosing my claim, a detailed sketch of my small 3 acre "farm", and a \$10.00 check to pay for the filing fee.

The well was drilled by Sterling Sigman during the summer of 1962 and has been in daily use for domestic water for 1 home and 1 barn since April 5th, 1963. I therefore would like to claim priority to this date.

When Mr. Sigman tested this well, he maintained a 60 gpm draw over a 24-hour period with no measurable lowering of the water level from 10 feet below surface.

The lot description is on file at Pocatello Title Co., Pocatello, under Mink Creek Acres, a registered subdivision.

If you need any further information, please advise me.

Thank you.
