SUBJECT Transfer Claim No. 29-4042

I am, once again, trying to get the amended claim submitted so that the records will be complete. Mr. Tripp originally sent the transfer back to the office which has been approved but to this date the amended claim upon which it was based has not been received.

RE: Transfer No. 29-4042
DATE: August 30, 1977

This claim and the transfer were originally filed in September, 1974. A subsequent field exam showed differences in the lands irrigated and the point of diversion.

In order to make the documents agree with the facts, I drafted an amended claim and amended transfer based on the field exam and sent them to Mr. Tripp for signature.

For some reason Mr. Tripp signed the amended transfer and returned it, but did not return the amended claim. Since a claim was already on file, the transfer was processed and forwarded for approval before it was discovered that it was not supported by an amended claim.

We have since drafted additional copies of the amended claim and sent them to Mr. Tripp with letters explaining why the claim must be amended but we have received no answer.

The only solution appears to be to hand-carry a claim to Mr. Tripp for signature so the transfer can be approved.

It seems that Fred J. Tripp is still haunting our files and that you know more about why its there than anyone else. Would you please review the file and make a determination what needs to be done to complete our processing? It would be helpful if you could summarize the entire situation with a memo to the file.

In reviewing our files, we find that our office has not received the amended claim to a water right which was returned to you on April 15, 1975, for your signature in the presence of a notary.

Our Boise office has withheld the issuance of your approved transfer of a water right until such time as we receive the amended claim as the transfer was based on the amended claim.
