STATE OF IDAHO
DEPARTMENT OF WATER ADMINISTRATION

CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Bonnie Jean Dahlke, Administrator of the Ada L. Parris Estate
post office address Inkom, Idaho 83245
2. The point of diversion is in SE $\frac{1}{4}$ of NW $\frac{1}{4}$ Section 33 Township 10 S
Range 36 E B.M. located on Ground (name of source)
tributary to _____ in Bannock County.
3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.
 - a. Date of priority claimed:

<u>7-28-61</u>	amount: <u>2.2</u>	c.f.s. or	_____	acre feet
<u>8-1-69</u>	amount: <u>0.1</u>	c.f.s. or	_____	acre feet
_____	amount: _____	c.f.s. or	_____	acre feet
Total claimed <u>2</u> c.f.s. or _____ acre feet.				
 - b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:

use <u>irrigation</u>	period of use from <u>April 1</u>	to <u>October 31</u>	(both dates inclusive)
use _____	period of use from _____	to _____	(both dates inclusive)
use _____	period of use from _____	to _____	(both dates inclusive)
use _____	period of use from _____	to _____	(both dates inclusive)
4. Description of diverting works:
 - a. Surface water diversion dam and/or headgate: material is composed of _____
_____ ; length is _____ feet; height is _____ feet;
width at bottom is _____ feet; width at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____

 - b. Underground water diverting works: is well flowing or pumped Pumped ; depth of well is 345 feet; diameter of well is 16 inches; type of pump is Layne
capacity of pump is 500 in g.p.m.; name and address of well driller is F. W. Cagle
Downey, Idaho

29-4013

attach well logs if available; has there been any change in pump or motor since well was first completed _____; if so, give dates and explain _____

c. Conveying works: length of ditch to place of use is _____ feet; width of ditch at top is _____ feet; width of bottom of ditch is _____ feet; depth of water is _____ feet; grade of ditch per 1000 feet is _____ feet; material through which ditch passes is _____; maximum length of pipe line to first place of use is 10 feet; diameter of pipe line is 16 inches; type of pipe aluminum; grade of pipe per 1000 feet is no grade. Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible - no changes.
8 in main line. 4" laterals

d. If water is stored: name of reservoir _____; total capacity of reservoir is _____ acre feet; active capacity of reservoir is _____ acre feet; year construction commenced _____; year completed _____; date first used _____; period of storage is from _____ to _____; is reservoir drained each year _____; is reservoir on or off stream _____ explain _____

if feeder canal is used give maximum carrying capacity _____ c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions _____

has there been any enlargement of the reservoir since it was first built _____, if so, give dates and describe _____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

TWP.	RANGE	SEC.	NE1/4				NW1/4				SW1/4				SE1/4				TOTALS
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	
10	36 E	33										X							39.75
10	36 E	33												X					37.73
10	36 E	33					X	X			X								120.00
10	36 E	33							X										40.00

Total number of acres to be irrigated 237.48

Explain any significant increase in area irrigated since first use, give dates and acreages if known _____

b. Do you get water through a ditch owned by several users? No If yes, give the name of the ditch _____ The other users and their respective interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered _____

7. Where water is used for domestic or municipal purposes give number of families served _____ name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use, and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible, giving dates and quantities _____

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation

We are late filing because my Mother had sold this ranch and someone has neglected to follow through with the instructions. Three months before her death she had to take the place back. I am sure that she assumed that all the details for the well permit were complete as she kept the original permit locked up with her legal papers. She was in her seventies when she secured this permit and it could also be that she did not understand the conditions. The well has been in use every season since the completion in 1961 and has been used for irrigation purposes only. I am attaching affidavits from the nearest neighbors which will verify this.

State of Idaho

County of BONNOC } ss.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiants knowledge.

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	<u>May 18, 1871</u>	amount:	<u>0.8</u> c.f.s. or	<u> </u> acre feet
	<u>June 1, 1901</u>	amount:	<u>0.4</u> c.f.s. or	<u> </u> acre feet
		Total claimed:	<u>1.2</u> c.f.s. or	<u> </u> acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

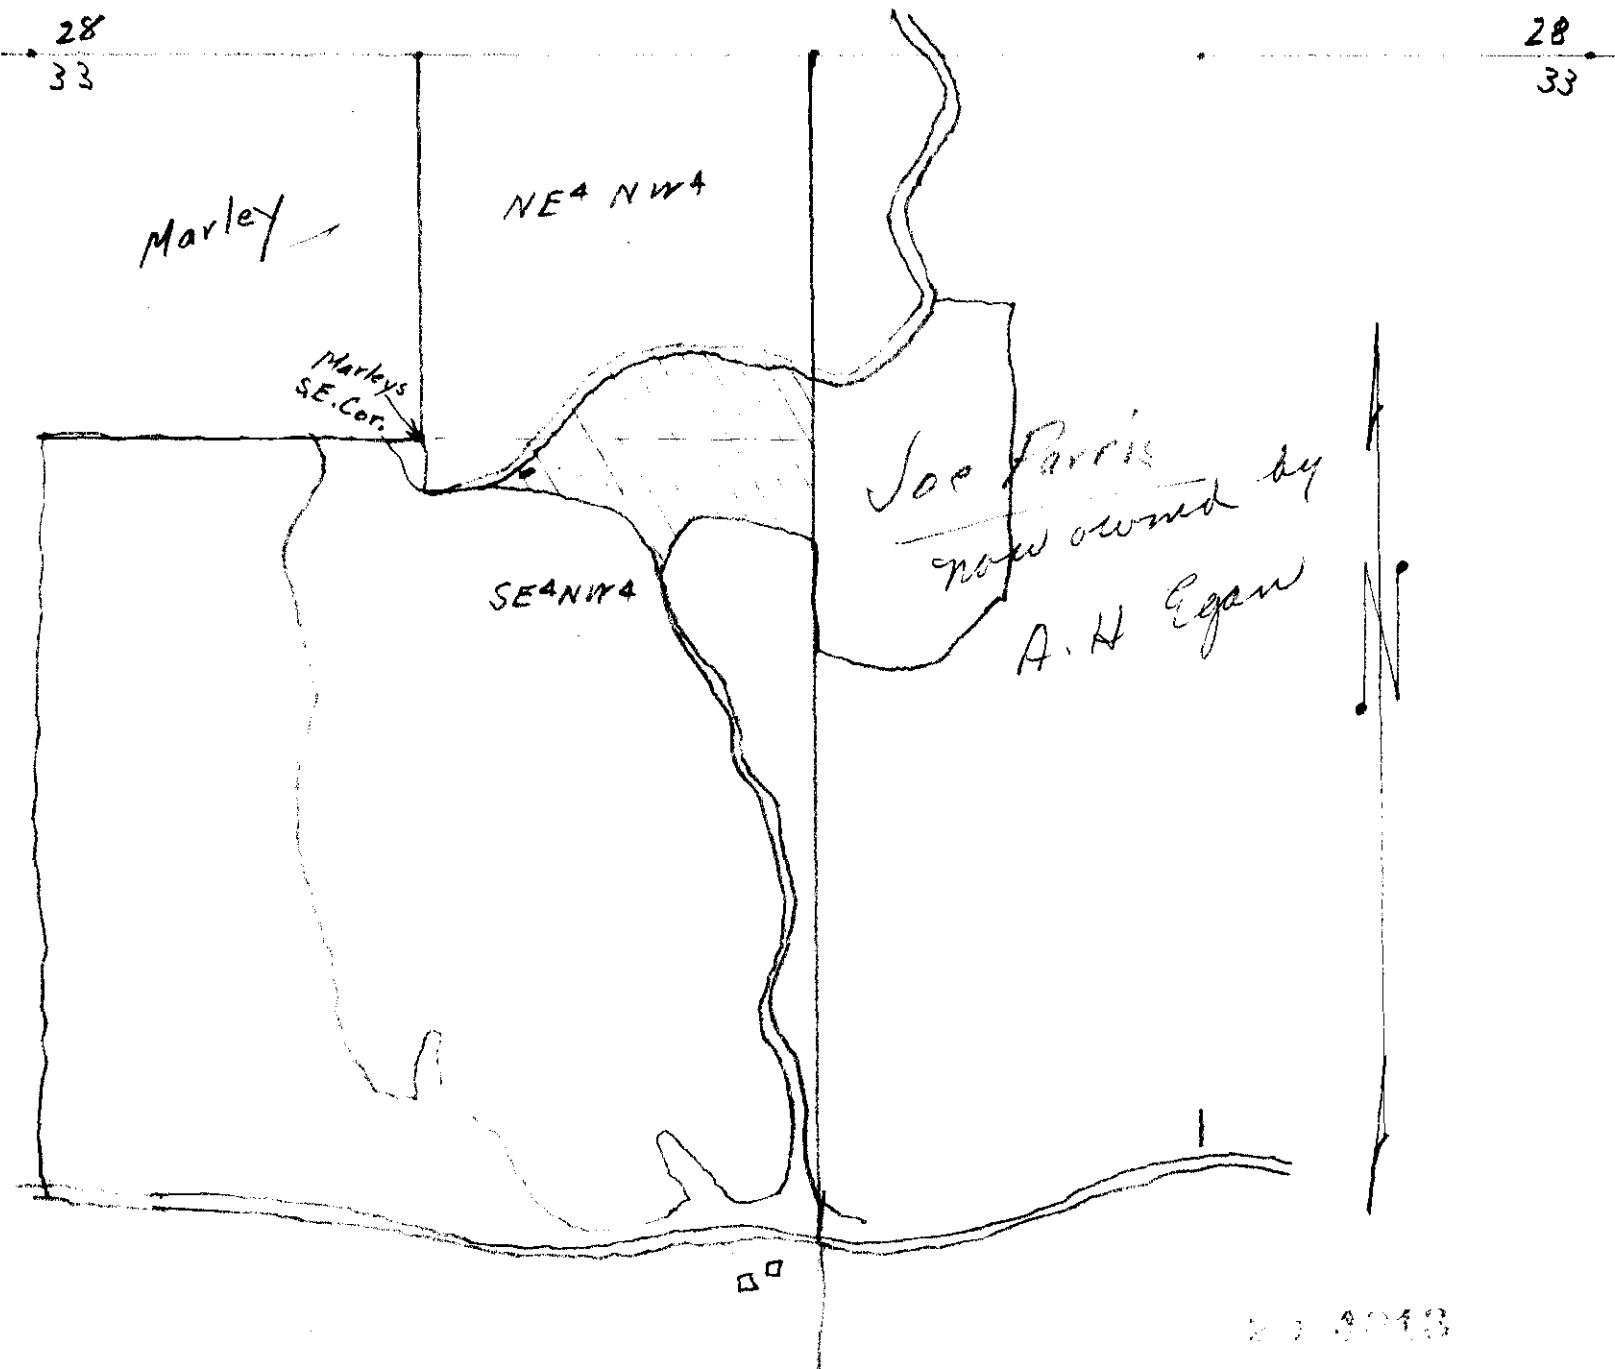

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

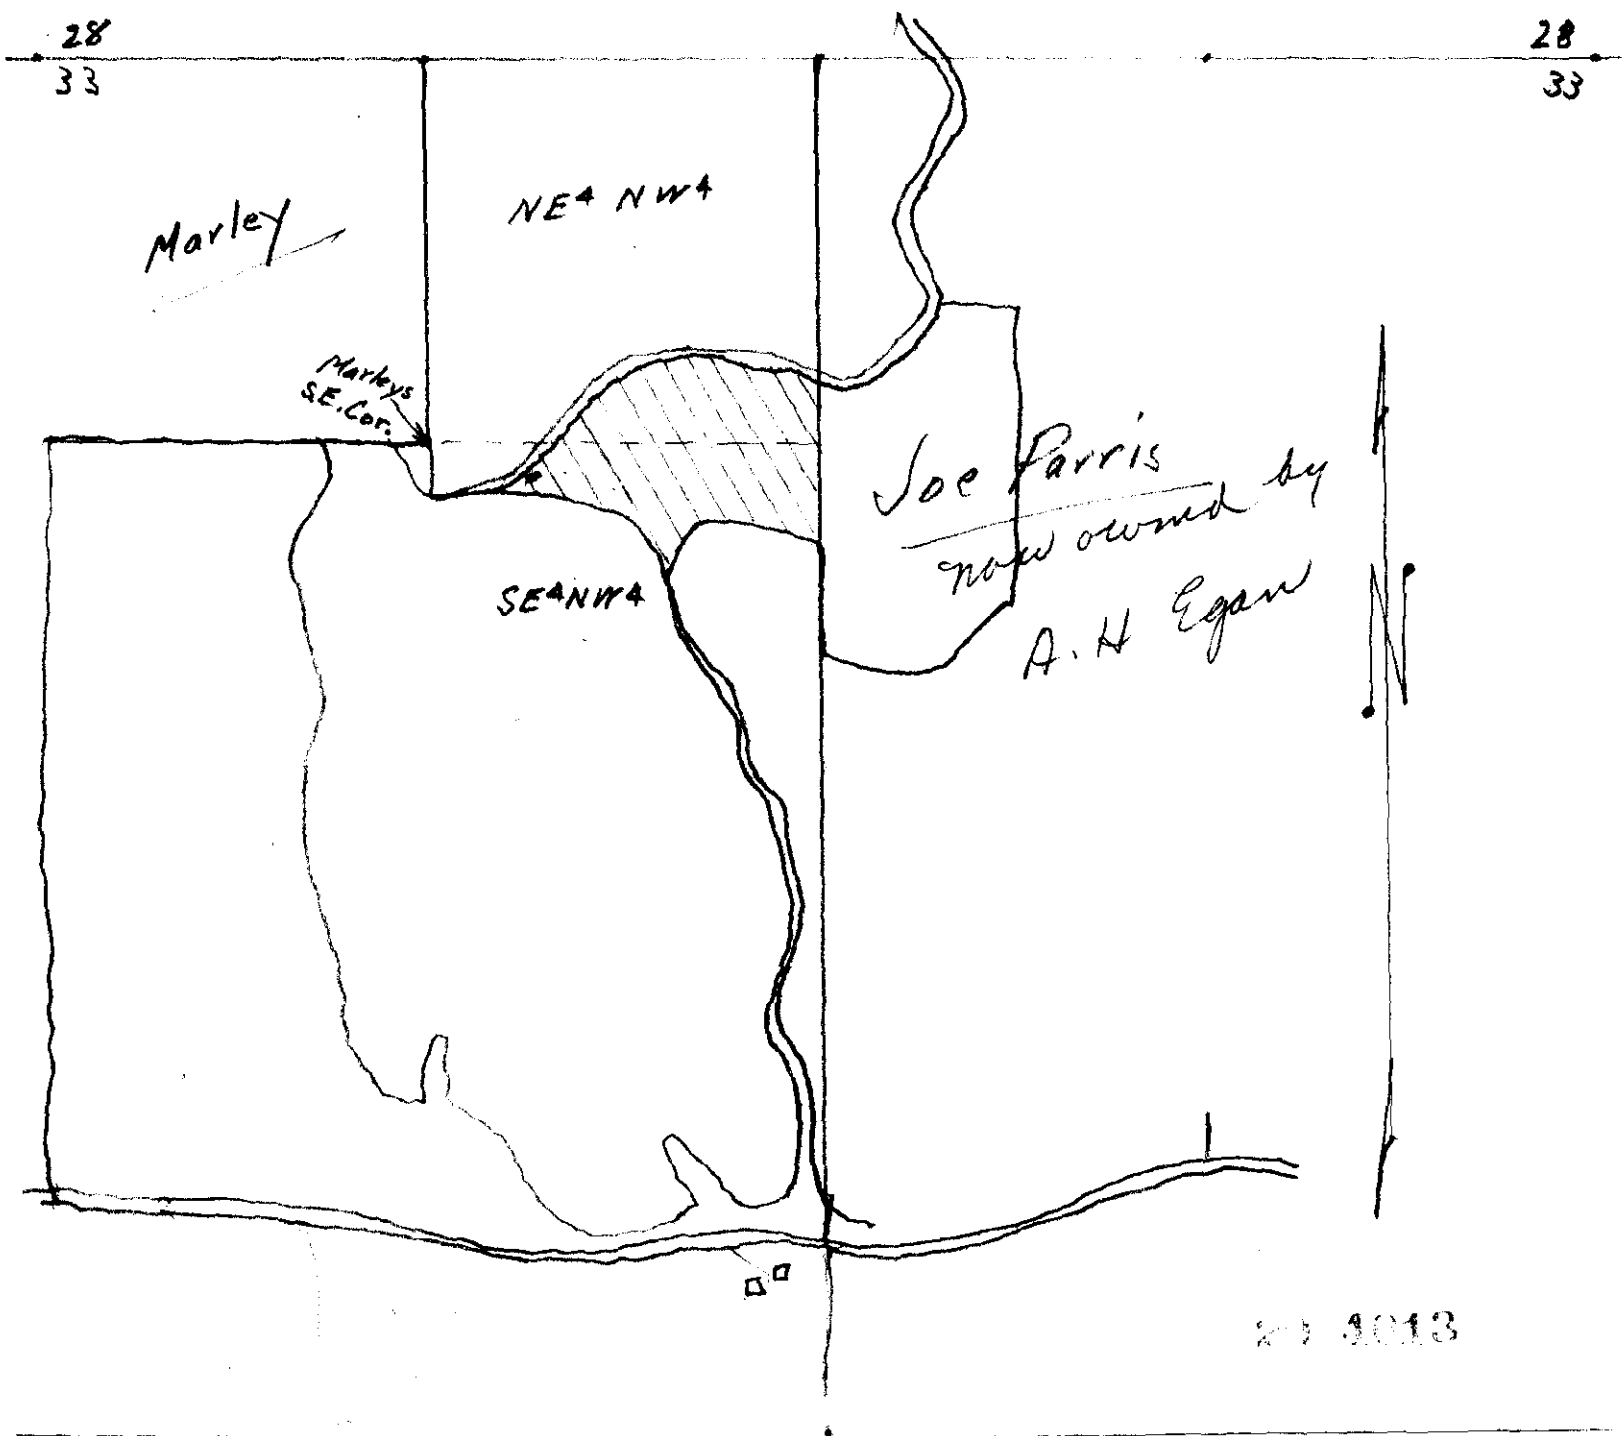

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

within Sec. 33, T. 10S, R. 36 E. 8 M.

Date

To Whom It May Concern:

I was renting the Ada L. Parris ranch at the time she had this well drilled. The well was completed on June 22, 1961. At this time the well was tested and it was pumping 360 gallons per minute, or .8 cfs.

I began pumping the well and it pumped a lot of sand at first. After I had pumped the well for some time we again tested the well. In 7/22/61 I made a weir and a neighbor, Louis McFarland, and Wayne Wheatley, a representative from the County Conservation Office witnessed this test. At this time the well was pumping 105 inches, or 2 cfs. The representative made a report of this test.

Dear Mr. Warren:

O
According to the location of the well shown in Claim to Water Right Number 29-4013 that you mentioned in your letter we have located a driller's report on a well that was drilled for Ada L. Paris. A copy is enclosed.

P
Permit No. G29799 was cancelled, apparently because the applicant failed to make proof of beneficial use of the water. This permit is no longer valid. The above numbered claim was filed in order to confirm the use of the water, and establish the date of first use.

Very truly yours,

Bonnie Jean Dahlke
Inkom,
Idaho 83245

Dear Ms. Dahlke:

The Department of Water Administration has completed the processing of your claim to a water right and no further action is authorized under Section 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your claim. If you have any questions, or if we can be of further assistance, please feel free to call upon us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Idaho State Journal
Box 431
Pocatello, Idaho 83201

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

Aug 2 1971

Department of Water Administration

State of Idaho
Department of Water Administration
Statehouse Annex 2
Boise, Idaho 83707

Dear Sir:

This is in reference to your letter of July 22, 1971, concerning a claim to a water right for the ranch owned by the Ada L. Parris estate.

I have been able to establish that the water which I have been trying to file a claim on was tested and measured in the first year the well was drilled. The pump was pumping 105 inches or 2 cfs in 1961.

I am enclosing an affidavit to this effect signed by W. L. Lowther. He was farming this ranch the year the well was drilled. He stated that a representative from the County Conservation Office witnessed this test and made a report. I contacted Mr. Wayne Wheatley and he remembered making this report. However, I find that the County Conservation Office destroys its files every 5 years and hence have no record.

I am enclosing a check for \$35, the amount listed on page 3 of the instructions for the fee for filing this claim to a water right.

I have also corrected item 3 accordingly.

I hope this will clear up the questions and enable you to process this claim.

Thank you for your assistance.

Very truly yours,

Bonnie Jean Dahlke

Bonnie Jean Dahlke

Administrator

July 22, 1971

H

Mrs. Bonnie Jean Dahlke
Administrator of the Ada L. Parris Estate
Inkom, Idaho 83245

Dear Mrs. Dahlke:

C We are once again returning your application for permit, claim to a water right and check #92-158 in the amount of \$10.00. We find in reviewing these two forms that there are several questions that need clarification before we could process them.

C As previously mentioned, the Department has been under a mandatory permit system for ground water since March 25, 1963. Therefore, that portion of the water right as claimed under the 1969 priority should be included on a new application for permit and deleted from the claim. If, in fact, the entire project was completed prior to the 1963 date, as you have indicated in your letter, then perhaps the claim is all that is needed. However, the 1969 date should be changed, as the affidavits submitted as supporting evidence with the claim would tend to indicate a 1961 priority. If, in further checking your records, you find that a portion of the water right as described in the claim was not established until June 1, 1969, then only this portion should be included on the new application for permit form.

P The filing fee for the application for permit can be determined from page three of the enclosed instructions.

Y If you should have any further questions in reference to this matter, please feel free to contact this Department.

Very truly yours,

Dorian Clay

Permit No. G-29799

Dear Sir:

I am enclosing the Claim To A Water Right and an Application for permit as you suggested. However, I am wondering if this is the right thing because no more drilling was done on this well after June 23, 1961. At the time of the final test it was determined that there was 0.8 cfs.

Three different operators have pumped the well up until 6-01-69. At this time the operator left the ranch and my husband was forced to take over the ranch. It was discovered at that time that the well had developed that much, through pumping sand and cleaning out new water streams.

I am sending the original check for a Claim to A Water Right (\$10) and also another check for \$10 for the additional permit of 0.4 cfs. The original permit was received in your office on June 12, 1961, 8:00 a.m.

I will certainly appreciate your assistance in getting this permit and claim as we are trying to settle this estate and we have a buyer for this ranch but the loan will not be approved until we have something definite on this water right.

The well may have developed earlier than 1969 but as I stated above we do not know for sure.

Thank you.

Very truly yours,

Bonnie Jean Doherty

Mrs. Bonnie Jean Dahlke, Administrator
Ada L. Parris Estate
Inkom, Idaho 83245

Dear Mrs. Dahlke:

We are returning your claim to a water right and personal check #92-158 in the amount of \$10.00. We find in reviewing this claim that there are two questions that need clarification before we can process it.

Please note that one of the priority dates listed under item #3a is after the March 26, 1963 date on which the Department of Water Administration came under the mandatory permit system for ground water sources. Therefore, that portion of the claim covered under the 1969 priority date should be included on a new application for permit form.

We also wish to call your attention to the fact that you have neglected to list the county in which your point of diversion lies under item #2.

We are enclosing an application for permit form, with instructions and a claim to a water right form for your consideration in this matter. If we may be of any further assistance, please do not hesitate to contact this Department.

Very truly yours,

Dorian Clay
Appropriation Examiner

Dear Ms. Dahlke:

We are returning your copy of the well log dated June, 1961. In researching our records, we find that the well driller submitted a like copy and we have had this on file since it was submitted.

A research of our records show that in connection with this well, water permit no. G-29799 was obtained in order to establish a water right for the use of ground water from this well. At the time the permit was approved, certain conditions were imposed as part of the approval. The permit holder failed to comply with the terms and conditions of the approval and the permit was cancelled and is no longer in force or effect. If you, at this time, have a water right, it is based on a constitutional appropriation established by diversion and beneficial use. You may make a public record of this constitutional appropriation by filing a claim to a water right form. At present, there is no mandatory requirement that you file a claim.

Apparently, the Federal Land Bank needs verification that your right exists and it is their request that you file a claim in order to provide verification that you have a water right.

If we may be of further assistance to you, please contact us.

Very truly yours,

Donald W. McEldowney

Department of Water Administration

Dear Sir:

I am writing you in regard to the water rights to a well on the Ada L. Parris ranch at Arimo, Idaho.

I have been informed by the Federal Land Bank, at Preston Idaho that there are no water rights to the Ada L. Parris ranch.

Ada L. Parris is now deceased and I am her daughter and am Administrator of the estate. In her legal papers I have found the permit which was returned to her from the Dept of Reclamation. I also have two copies of a well log report which was completed signed and dated by the well driller on completion of the well.

I am enclosing one of these reports. Evidently she did not realize that the well report should have been forwarded to your office.

You will note the well was completed June 22, 1961. Do I still have to complete the Form, Claim To A Water Right?

The well has been used every season since completion.

Very truly yours,

Bonnie J. Dahlke
