

County: Bannock
Stream: Unnamed Spring
Amount: 1/100 of 1 cu.ft.
Use: Domestic
Priority: June 20, 1911

STATE OF IDAHO

Water License No. 7484

WHEREAS, On the 20th day of June, A. D. 1911,

James W. Buckley

of Bancroft, County of Bannock, State of Idaho, duly made application (No. 10935) to me for a permit to use 1/100 of 1 cubic foot per second of the waters of an unnamed spring

County of Bannock, State of Idaho, for irrigation and domestic purposes, and,

WHEREAS, On the 22nd day of July, A. D. 1911, Permit No. 7484 was issued to said applicant for the diversion of said water and providing for the completion of the works of diversion therein described on or before the 22nd day of January, A. D. 1912, and for the application to beneficial use of said water on or before the 22nd day of January, A. D. 1913, and,

WHEREAS, On the 5th day of January, A. D. 1912,
James W. Buckley

the holder of said permit, duly made proof of the completion of adequate works for the diversion of 1/100 of 1 cubic foot per second of said waters, as evidenced by my Certificate No. 7484 dated August 24, 1912, confirming the completion of works of sufficient capacity for diverting and conveying to the place of intended use 1/100 of 1 cubic foot per second of said water, with date of priority of June 20, 1911, and

WHEREAS, On the 12th day of September, A. D. 1914,

James W. Buckley

the holder of said permit, duly made proof of the application to beneficial use of 1/100 of 1 cubic foot per second of said water:

NOW, THEREFORE, By virtue of authority vested in me by the laws of the State of Idaho, I hereby grant and confirm to James W. Buckley

of Bancroft, County of Bannock, State of Idaho, the holder and owner of said Permit No. 7484, a perpetual right, dating from June 20, 1911, to the use of 1/100 of 1 cubic foot per second of the waters of an unnamed spring.

in the County of Bannock, and State of Idaho, or so much thereof as may be necessary for the purposes hereinbelow mentioned, to be diverted in the SW $\frac{1}{4}$ of NE $\frac{1}{4}$, Sec. 8, T. 10 S., R. 39 E.B.M.,

and conducted to ~~xxxxxx~~ place of use near the Spring in SW $\frac{1}{4}$ of NE $\frac{1}{4}$, Sec. 8, T. 10 S., R. 39 E.B.M.,

for the purpose of domestic use, subject, however, to the laws of the State of Idaho, applicable to a license for the use of the waters of the State, and subject, also, to the local or community customs, rules and regulations which have been or may be adopted from time to time by a majority of the users from a common source or supply, canal or lateral from which such water may be taken, when such rules and regulations have for their object the economical use of such water.

WITNESS, My hand and the seal of my office at Boise, Idaho, this 24th day of October A. D. nineteen hundred and fourteen.

Herbert Wing,

(Seal)

Acting State Engineer:

~~13-2013~~ 29-2570

13-2043

No. 10935.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

1. Name of Applicant: James W. Buckley.

Postoffice address: Turner

County: Bannock State: Idaho

2. The quantity of water claimed is 1/100 cubic feet per second.

3. Source of water supply: Unnamed spring.

4. Location of point of diversion: SW4 NE4 Sec 8 Twp 10 S R 39 E.B.M.

County of Bannock

5. To be used for: Domestic and irrigation (see remark 2)

I. Irrigation and domestic use:

(a) Amount of land to be irrigated: $\frac{1}{4}$ acre.

(b) In the following legal subdivisions: SW4 NE4 Sec 8, Twp 10 S.R. 39 E.B.M.

6. Estimated cost of works: \$35.00.

7. Description of works for diversion:

I. Kind of works: ditch.

II. Dimensions of works:

(d) Conduit ditch (see remark 1), width at bottom 1/3 foot, width at water line 1/3 foot. Average grade per mile is 15 feet. Length of conduit is 1/8 mile and it crosses the following quarter sections: SW4 NE4 Sec 8 Twp 10 S. R. 39 E.B.M.

8. The time required for the completion of the construction of such work is 1/3 year.

9. Time required for the complete application of the water to the proposed use is 1 additional year.

BE IT KNOWN That the undersigned hereby makes application for a permit to appropriate the public waters of the State of Idaho as herein set forth.

James W. Buckley

Applicant.

By Junior Real Estate Company, Pocatello, Idaho...Agent.

Remarks: #1 The stream of water coming from the spring herein applied for is very small and it will only be necessary to make a small plow furrow or small ditch to conduct the water to the place of intended use.

#2 The principal use to which the water will be put is for cullinary purposes and I will attempt to irrigate only a very small piece of ground.

APPROVAL OF STATE ENGINEER.

The number of this permit is 7484.

Date of first receipt at office of State Engineer 9:00 a.m. June 20, 1911.

Recorded in Book 23 Page 7484 Approved July 22, 1911.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho and hereby approve the same, subject to the following limitations and conditions:

Work to begin on or before September 20, 1911, and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before October 22, 1911.

The whole of said work to be completed on or before January 22, 1912.

Beneficial use of water appropriated in accordance herewith, to be made on or before January 22, 1913.

Witness my hand this twenty-second day of July, 1911.

A.E. Robinson

State Engineer.

W. K. Aiken authorized June 19th, 1912, to make the required examination.

Report of Engineer received August 1st, 1912.

Affidavit received January 30th, 1912.

Certificate issued August 24th, 1912.

Permit No. 7484

CERTIFICATE OF COMPLETION OF WORKS

To All Whom it May Concern:

This is to certify that JAMES W. BUCKLEY, of Turner, County of Bannock, and State of Idaho, the holder of Permit No. 7484, issued upon Application No. 10935, bearing date of priority of June 20th, 1911, authorizing the diversion of 1/100th of one second foot of the waters of an UNNAMED SPRING, County of Bannock, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 1/100th of one second-foot of the waters of an Unnamed Spring, that the point of diversion of said waters is at a point in the Southwest quarter of the Northeast quarter (SW $\frac{1}{4}$ NE $\frac{1}{4}$), Section 8, Township 10 South, Range 39, East of the Boise Meridian, and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: Southwest quarter of the Northeast quarter (SW $\frac{1}{4}$ NE $\frac{1}{4}$), Section 8, Township 10 South, Range 39, East of the Boise Meridian.

Witness my hand this 24th day of August, A.D. 1912.

A. E. Robinson,
State Engineer.

License issued for .01 second feet

REPORT OF ENGINEER

1. State name of applicant and number of permit: James W. Buckley Per. 7484
 2. State source of water supply: Un-named Spring
 3. Location of point of diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 8 T10S, R39E BM.
 4. State whether or not the works of diversion are fully completed and in accordance with terms of permit:
They are not.
 5. Describe works as they exist, giving dimensions of same as follows:
 - (a) Width of conduit at bottom: None
 - (b) Width at water line: None
 - (c) Depth of water: None
 - (d) Grade per mile: None
 - (e) Capacity of ditch: None second feet.
 6. State whether or not water has been turned into works of diversion and if so, to what extent:
There is no diversion other than a piece of $1\frac{1}{2}$ " pipe about 5' in length leading to a small trough.
 7. Give exact location of lands to be irrigated. Give exact number of acres under cultivation in each forty acre tract: There is no land under cultivation and none prepared for cultivation. There has been none cultivated
 8. Submit map on enclosed plat, source of supply, point of diversion, route of ditch or ditches and cross hatch lands to be irrigated.
- Remarks: The above Springs have not been maintained, are merely seeping from trampled mud. They are used for no other purpose than the watering of Range Sheep.
There is no evidence of inhabitation on the place for many months other than a camp.
There is no evidence of use for domestic purposes.

REPORT OF ENGINEER.

1. State name of applicant and number of permit: Jas. W. Buckley. Permit 74849
2. State source of water supply: An unnamed spring
3. Location of point of diversion: Nineteen hundred (1900) ft. west and Three hundred thirty (330) ft. north of the S.E. Cor. of the N.E. 1/4 of Sec. 8, Tp. 10 S. R. 39 E. Boise M.
4. State whether or not the works of diversion are *fully* completed and in accordance with the terms of permit: They are.
5. Describe works as they exist, giving dimensions of same as follows:
 - (a) Width of conduit at bottom: One (1) ft.
 - (b) Width at water line: One and one fourth (1 1/4) ft.
 - (c) Depth of water:
 - (d) Grade per mile:
 - (e) Capacity of ditch: second feet.
6. State whether or not water has been turned into works of diversion, and if so, to what extent:

It has, it has run to the house and garden and in addition I find 13 well made watering troughs 12x12' inside x 14' ave. length.
7. Give exact location of lands to be irrigated. Give exact number of acres under cultivation in each forty-acre tract: Twenty two hundred (2200) ft. West and Three hundred (300) ft. North of the afore said cor. I find more land plowed than the stream can irrigate. About one acre.
8. Submit map on enclosed plat, showing source of supply, point of diversion, route of ditch or ditches and cross-hatch lands to be irrigated.

Remarks: The stream was so small I used a five gallon kerosene can to determine the quantity: time twenty seconds to each gallon of water. All work pertaining to the little system was neatly done.
