Dear Tony,

Enclosed is our water license application along with the \$20 payment for filing.

We are sending this application to you first, and would appreciate it if you would check it over for completeness. We were bothered by a paragraph (marked with red) in the letter that was sent to us about amending the permit form. As far as we can tell, the form is complete, but please check it out for sure. Also, what do they mean about amending the permit form?

If all is OK, please send the form and payment to Boise in the enclosed envelope; otherwise send it back to us telling what revisions we need to make.

Thanks for your help in this matter. It is greatly appreciated. Also, please send us a postcard if all is fine with the form, and that you have sent it all onto Boise. Thanks.

Dear Sir:

I received your letter concerning the water from my well.

I have had three different men here over the last five years asking for information on my well, and I have given them the information that they asked for. Last summer there was another man here. He and I went over to the well, and I showed him that I have a 15 horse-power motor on this little well. It only pumps 30 inches of water into a small reservoir I have.

The amount of water you have down in the letter is not correct.

Would you please send a field man out this summer and we will get it right?

I wish my well had been a good well, but I missed.

If you are coming out this way in the near future, would you please let me know so that I will sure be home?

Sincerely yours,
