WATER RIGHT LICENSE

License of Water Right No. 29-2564 Priority January 21, 1964 Amount 2.2 Acre Feet

THIS IS TO CERTIFY, that Russell J. Hayden  
of Arbon, Idaho, has complied with the terms and conditions of Permit  
No. 29-2564 issued pursuant to Application for Permit dated January 21, 1964,  
and has submitted proof to the Department of Water Resources on November 15, 1974,  
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a  
capacity for the diversion of 2.2 Acre Feet of water from Clifton Creek,  
tributary to Rattlesnake Creek, and that the permit holder has applied to a beneficial use and  
established a right to use water as follows:

| Beneficial Use                   | Period of Use                                  | Rate of Diversion  | Annual Volume        |

Dear Mr. Hayden:

One of the conditions of approval of your water Permit No. R-1174/29-2564 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 27, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Russell J. Hayden, Arbon, Idaho  
has received an approved permit  
No. R-1174 to store 16.5 acre  
feet of water from Clifton Creek  
tributary of the Snake River. The  
priority to be established under  
this permit is January 21, 1964.  
Water will be diverted by ditch,  
headgate, dam within the channel  
of the Clifton, Power County and  
is to be used for irrigation,  
stock pond and fish pond in the  
SW 1/4 SE 1/4, Sec. 3,; E 1/2  
SW 1/4, Sec. 8; NW 1/4 NE 1/4,  
Sec. 10, T. 9 S., R. 34 E., B.M.

Any protests against the intent  
of the permit must be filed with

Dear Sir:

I am writing regarding three permits -

Subterranean Waters

No. 32466

Water from springs

No. 32321

For storage

No. R-1174

29-2509  
29-2478

No. 32466

My partner, Carl Hayden, checked with your office sometime back and discovered the driller had not filed a log of this well with you. I am enclosing a copy of all the information I have for your file.

As you see, the well tested only about 30 inches so to date we have not installed a pump. We now feel we should deepen the well to try to increase the flow.

Do I need another permit? Do I extend the time on this one past August, 1970 and retain original filing date? If not, what must I have operating by the August, 1970 date?

No. 32321

I believe I have completed all the requirements on this permit. Last fall I was contacted by an engineer from your office or representing you who was, I believe, going to verify the completion and proof of use of the water. I have never heard anything further on this permit or his inspection. Was it O.K.? Is there something wrong or is there something more I should do?

No. R-1174

After obtaining this permit the local SCS engineers mapped the

29-2364  
R-1174

area and discouraged me from constructing this dam as the small storage would not justify the cost. I would now like to build a much smaller pond for fish. I have already obtained a permit from the Fish and Game. It will also be used for stock pond and a minor amount of irrigation. Can I use this same permit? The pond will be within a few hundred feet of the first site.

I would also like an application form for the appropriation of subterranean waters.

Thank you kindly.

Very truly yours,

Dear Mr. Hayden:

We acknowledge receipt of the affidavit of publication submitted in connection with the above referenced permit. Since proof of beneficial use of the water is not due until January 27, 1975, the Department will notify you sixty days in advance of this date as to further requirements. You may submit proof before this date if you have fulfilled the requirements under this permit.

Very truly yours,

Dear Mr. Hayden:

The Department of Reclamation has received the copy of the legal notice we forwarded to you and the signed authorization of publication. Please be advised that the Department has submitted the notice to the newspaper and the publication dates are December 5 and December 12, 1968.

The Department suggests that you obtain the affidavit of publication from the newspaper as soon after the last date of publication as possible as many newspapers do not retain copies of these advertisements in their files.

Please contact us if we may be of further assistance.

Re: Permit No. R-1174

Russell J. Hayden  
Arbon, Idaho 83212

Dear Mr. Hayden:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit ~~under the new procedure~~. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

ORDER MODIFYING REQUIREMENTS  
FOR COMPLETION OF PERMIT TO  
APPROPRIATE WATER

WHEREAS, the 39<sup>th</sup> Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. R-1174 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39<sup>th</sup> Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
  - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
  - b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before January 27, 1975. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for Completion of Works may be grounds for cancellation at the instance of the Department.

Dear Mr. Hayden:

Returned herewith is your check for \$5.25 fee for application for permit. The fee is \$5.00 which you should return to this office at your earliest convenience.

Your application is for three fills of reservoir per year. That must be reduced to one fill. Reservoirs may be filled only during times of excess flow over prior water rights. During such times your direct flow rights are effective.

During irrigation season you must maintain a flow of water below the reservoir as enters the reservoir when such water is required to fill prior rights. When such flow does not reach the next user downstream, you are entitled to the full flow at the reservoir.

Kindly send complete plans of the dam as soon as completed as plans must be approved prior to start of construction.

Don't forget to send a \$5.00 check by return mail.

Thank you for your kind words to Mr. Petri. The forms requested are enclosed.
