

State of Idaho
License and Certificate of Water Right

Water License No. R-427 Amount 700 Acre-Feet
Water District No. Priority 5-12-1928

THIS IS TO CERTIFY that Chesterfield Canal & Reservoir Company, Store and
of Bancroft, County of Bannock, made application for a permit to appropriate the
public waters of the State of Idaho, dated May 12, 1928, 19 28; that Permit No. 427
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
700 second feet, was issued thereunder on February 26, 19 29, showing that said works
were completed on the 8th day of November, 19 28; and that on the 8th
day of November, 19 28,

Chesterfield Canal & Reservoir Company
of Bancroft, State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of Twenty-four
Mile Creek, a tributary of Portneuf River, for the purpose of irrigation and
domestic use, under Permit No. 427 of the Commissioner of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is
hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 6
of Licenses, at page 3569, on the 26th day of February, 19 29;
The right hereby confirmed dates from May 12, 19 28;

The outlet of the said reservoir is located in the NE $\frac{1}{4}$ of NE $\frac{1}{4}$
in the $\frac{1}{4}$ - $\frac{1}{4}$, Sec. 16, Tp. 6 S., R. 39 E., B. M.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid,
is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 700 acre-feet annually,
cubic feet per second, being a supplemental right to the decreed right now held by said Chester-
field Canal & Reservoir Company.

State of Idaho

Water License No. R-324

Amount 4,000 acre-feet

THIS IS TO CERTIFY that North Fork Reservoir Company, of St. Anthony, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated September 4, 1923; that Permit No. 324 was issued under said application; that Certificate of Completion of works, with a storage capacity of 4,000 ~~second~~ ^{acre} feet, was issued thereunder on October 25, 1927, showing that said works were completed on the 22nd day of October, 1927; and that on the 22d day of October, 1927,

North Fork Reservoir Company

of St. Anthony, State of Idaho, made proof to the satisfaction of the Commissioner of Reclamation of Idaho, of the right to use the waters of Dry Creek, a tributary of Henry Fork of Snake River, for the purpose of irrigation and domestic use, under Use Permit No. 13122 of the State Engineer of Idaho, as a supplementary right in low water season for land already under irrigation, and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 6 of Licenses, at page 568, on the 20th day of February, 1929 ;

The right hereby confirmed dates from September 4, 1923 ;

The Point of Diversion is located from Dry Creek is located S.82°06'E. 1376' from the ¹/₄ Corner common to Secs. 23-24, Twp. 15 N., R. 43 E., B. M. The outlet in the ¹/₄ -- ¹/₄ Sec. , Tp. , R. , B. M. from the Reservoir is located in Lot 6 (SW ¹/₄ NW ¹/₄) Sec. 26, T. 15 N. R. 43 E., B. M. Fremont Co. That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 4,000 cubic feet per second. acre-feet per annum

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
Approximately 56,000 acres of land lying in Fremont and Madison Counties, in Twps. 6, 7 and 8 North, Ranges 38, 39, 40 and 41 East, Boise Meridian.					

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho,
this 20th day of February, 1929.

GEO. N. CARTER
Commissioner of Reclamation

APPLICATION FOR PERMIT 29-2558
To Construct a Reservoir and Store and Appropriate
The Public Waters of the State of Idaho

Application No. R23838
Permit No. R 427

1. Name of Applicant: Chesterfield Canal and Reservoir Co.
Postoffice address: Bancroft, County Bannock, State Idaho.
I. If applicant is a corporation, give:
(a) Date and place of incorporation: June 15th, 1895, Chesterfield, Idaho. (b) Amount of Capital Stock: at that time \$10,000, increased to \$17,000, in 1926.
(c) Amount paid in: \$ All paid in. (d) Names and addresses of directors: Earle B. Thorpe, Bancroft, Idaho, Joanathan Holbrook, Bountiful, Utah., Fred Johnson, Hatch, Idaho, Chris Call, Chesterfield, Idaho, Del Bowman, Chesterfield, Idaho.
II. The financial resources of the corporation are:
(a) Cash on hand: \$500.00 (b) Treasury Stock: \$
(c) Bonds to be issued: \$ (d) Other resources: ditches and canals.
2. Quantity of water to be stored: 700 acre feet per annum.
3. Source of water supply is Twenty Four Mile (Creek) ~~(River) (Spring)~~, a tributary of Portneuf River.
4. The outlet of the proposed reservoir is located 1000 feet, distant from the NE corner of Section 16, Township 6 S., Range 39 E., B. M. and is in the NE 1/4 of NE 1/4 of Section 16, Township 6 S., Range 39 E., B. M. County of Bannock.
5. Fill out either (a) or (b).
(a) The reservoir is located in the channel of 24 Mile (Creek) ~~(River)~~.
(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located N. 24° 30' E., 600 feet distant from the SW corner of Section 10, Township 6 S., Range 39 E., B. M., and is in the SW 1/4 of SW 1/4 of Section 10, Township 6 S., Range 39 E., B. M.; width at bottom 3 feet, width at top 8 feet, depth of water 2 feet; average grade per mile 20 feet; Capacity 21 cubic feet per second.
6. (a) The area of the high water line of the reservoir is 50 acres.
(b) The reservoir capacity is 700 acre feet.
7. Height of reservoir dam 30 feet, length at top 1129 feet, length at bottom 1100 feet, size of outlet 12" pipe. feet- by feet. The dam is to be constructed of materials as follows: earth.
(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)
8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of Twenty Four Mile (Creek) ~~(River)~~? No.
(b) Water stored in reservoir will be carried in the channel of Twenty Four Mile (Creek,) ~~(River)~~ a distance of 1 miles to point of diversion located (bearing) feet, distant from the corner of Section Township, Range, B. M., and in the NW 1/4 of NW 1/4 of Section 22, Township 6 S., Range 39 E., B. M.
9. Amount of water claimed from Twenty Four Mile (Creek) ~~(River) (Spring)~~ in addition to that stored in reservoir (all except natural flow)? cubic feet per second.
10. Water is to be used for irrigation and domestic purposes.
11. If for mining, milling, power or manufacturing purposes give:
(a) Point of use of water (bearing) feet, distant from Corner of Section, Township, Range, B. M. and is in the 1/4 of 1/4 of Section, Township, Range, B. M.
(b) Amount of power generated: H. P., under feet head.
(c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet distant from the corner of Section, Township, Range, B. M., in the 1/4 of 1/4 of Section, Township, Range, B. M.
12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No. 14504, which is hereby referred to and made a part hereof.

13. Kind of diversion works: dam. (Dam, canal, flume, pipe, etc.)
14. Height of diversion dam: 30 feet, length at top 1129 feet, length at bottom 1100 feet. The dam is to be constructed of materials as follows: earth.

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width 5 feet, Height 3 feet.
16. Diversion Canal: Width at bottom 5 feet, width at water line 8 feet, depth of water 2 feet, Dimensions of Flume Diameter of Pipe 12 inches; Length of Conduit 11 miles. Average grade per mile 5.3 feet.
17. Estimated cost of Works: Storage Works: \$ 9,000 Diversion Works: \$
18. Time required for completion of work : completed. years
19. Time required for complete application of water to proposed beneficial use is No years.
20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE¼				NW¼				SW¼				SE¼				Totals
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

																			2190

Total Number of Acres to be Irrigated

Remarks: The water stored is to be conducted through the existing canals of the Chesterfield Canal and Reservoir Co., to be used on lands of said Co. near Chesterfield. This dam was finished in October 1926. Point of diversion of East Fork of Twenty Four Mile Creek is N. 24 30' E. 600' from the NE corner of Sec. 16, T. 6 S., R. 39 E. Point of diversion of Twenty Four Creek is the natural channel at the dam site.

BE IT KNOWN That the undersigned hereby makes application for permit to construct a reservoir and store and appropriate the public waters of Idaho as herein set forth, and that the enclosed map is hereby made a part of this application.

Chesterfield Canal & Reservoir Co. Applicant.
By Earl B. Thorpe. Agent.

Date of first receipt at office of Commissioner of Reclamation 9 A. M., May 12, 1928.
Returned to applicant for correction
Corrected application received

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is R 427.
Recorded in book R 2, page 427. Approved May 29, 1928.
This is to certify that I have examined the within application for a permit to construct a reservoir and store and appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:
Bond in the sum of \$, to be filed on or before July 28, 1928 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.
One fifth of the work above specified to be completed on or before August 29, 1928.
The whole of said work to be completed on or before November 29, 1928.
Beneficial use of water stored in accordance herewith, to be made on or before November 29, 1928.
Witness my hand this 29th day of May, 1928.
GEO. N. CARTER,
Commissioner of Reclamation.

Proof of Completion of Works made November 8, 1928
Certificate of Completion of Works issued February 26, 1929

Permit No. R-427

CERTIFICATE OF COMPLETION OF RESERVOIR AND
RIGHT TO STORE WATER

Amount 700 Acre feet

Priority 5-12-1928

This is to certify that Chesterfield Canal & Reservoir Company, of Bancroft, County of Bannock, and State of Idaho, the holder of Permit No. R-427, issued upon Application No. R-23838, bearing date of priority of May 12, 1928, authorizing the construction of a reservoir and the right to store the waters of Twenty Four Mile Creek, a tributary of Portneuf River, County of Bannock, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works as set out and described in said Permit; that said works are adequate for the storage of 700 acre feet of water annually; that the location of the outlet of said reservoir is in the NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 16, Township 6 S., Range 39 E., Boise Meridian; that a right to store the said waters has been perfected in accordance with the laws of Idaho and is hereby confirmed by the Commissioner of Reclamation and entered of record in Volume 2 of Reservoir Permits, at page 427, records of the Department of Reclamation on the 26th day of February, 1929; that the right hereby confirmed dates from May 12, 1928; and that the amount of water to which said right is, by this certificate, entitled to store annually shall not exceed 700 acre feet.

Witness the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho, this 26th day of February, A. D. 1929.

R-427

November 22, 1949

Mr. Joe Holbrook, Secretary
Chesterfield Canal & Reservoir Co.
Bancroft, Idaho

Dear Mr. Holbrook:

License was issued on Permit R-427 for 700 acre feet of storage in addition to the decreed right held previously.

The dam was built to the 1928 specifications and repair to these specifications of crest elevation, high water elevation, crest width and slopes would not require submission of plans and specifications to the Department for approval.

However, as we understand the situation, it is your intention to increase the crest elevation and spillway level so that the full amount of decreed and licensed storage can be obtained. For this purpose plans and specifications should be submitted for approval. We will require a copy for our files.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

E. B. THORPE

SECY-TREAS.

Dear Sirs:

RECEIVED

Department of Reclamation

Could you let us know if additional water storage right was filed upon and recorded when this Reservoir was rebuilt in 1928. Could you also tell us what the present storage capacity is to date, that has been filed upon and recorded. If not, Could you tell us where to obtain this information?

The United States Department of Agriculture ^{Soil Conservation} is helping us to raise this Reservoir up to the present specifications.

(You will find these in your copy of a letter sent to Chesterfield Canal & Reservoir Co. in care of Mr. D. H. Smith October 27, 1947.) The Soil Conservation has plans drawn up, still they have to submit these plans to the State Reclamation Department for inspection or can we proceed with this work without. Our plans are to bring this up to the 1928 specifications.

Very Truly Yours

Joe Holbrook Secy of Chesterfield Canal & Reservoir Co.

UNITED STATES
DEPARTMENT OF AGRICULTURE
SOIL CONSERVATION SERVICE

P. O. Box 1407
Pocatello, Idaho
October 12, 1949

Mr. A. Paul Hatch
President
Chesterfield Canal and Reservoir Co.
Chesterfield, Idaho

Dear Mr. Hatch:

In checking over the water rights, we can't seem to find anything after the 1922 decree. This right dates back to 1882 and is for 100 acre feet storage and 6 cubic feet per second of flow. Did the company obtain additional storage right in 1928 when the dam was rebuilt?

I believe you should check with the Idaho State Reclamation Engineer to find out how much storage right you have. Also, ask if the state is interested in approving the plans to rebuild the dam to the 1928 plans. The storage will be increased to compensate for silting of the reservoir, but the freeboard will not be changed. A reinforced concrete spillway structure will be designed wide and shallow to carry the same maximum discharge at a depth of $1\frac{1}{2}$ feet with 4 feet of freeboard as before. The state also requires air vents at the intake structure, which we are including in the plans with the new gate control. A trash rack and fish screen is also planned for the intake.

I believe immediate action should be taken to make sure the company is in the clear with the State Engineer's office.

Very truly yours,

W. D. Baldrige

March 3, 1947

Mr. Chris Call, Secretary,
Chesterfield Canal & Reservoir Co.
Chesterfield, Idaho

Dear Mr. Call:

Referring to your letter of February 18th, relative to the construction of a concrete spillway to replace the former wooden one, and also the restoration of the dam to its original height by adding material to replace that worn off by the passage of cattle and sheep:

Your suggested improvement will doubtless meet with the approval of this Department. However, as regards your desire to build the dam to an increased height of five feet, we would require some additional knowledge of the present structure, probably in the form of a cross-section survey, and any other information which might be pertinent. This would also apply in the matter of the smaller reservoir down stream from the one under discussion, where there would also be need for examination and survey data.

We will endeavor to examine your project in the near future, and in the mean time, we are,

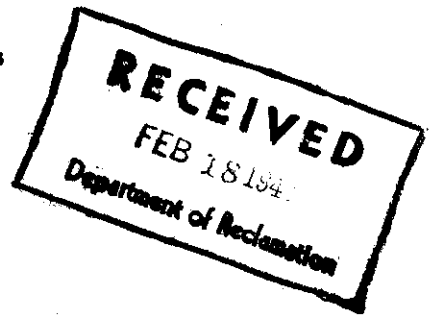

Very truly yours,

MARK H. KULP
State Reclamation Engineer

IDAHO STAKE
CHURCH OF JESUS CHRIST OF LATTER-DAY SAINTS
BANCROFT, IDAHO
February 15, 1947

Department of Reclamation

Boise, Idaho

Dear Sirs:

In 1928 we raised the dam on our twenty-four mile creek reservoir. There was a wooden spillway put in. About three years ago, it rotted and washed out. The cattle and sheep have used the dam for a crossing and have worn it down about two feet in some places.

We are writing to find out if it will be allright to put in a concrete spillway and build our dam up to its original capacity. What size spillway will we have to put in? We would like to build our dam four or five feet higher, if possible. There are some years we might be able to fill it.

There is, also, a little reservoir, about one-half mile below the large one, that washed out years ago. There is some talk of putting it in, again. So, if you could write us the details about these reservoirs, it will be greatly a preciated.

The number of our permit to build it was R-427 and permit number 14504. Proof of completion was number 172, in case you want to refer to them.

Hoping to hear from you soon. We remain

Respectfully yours,

Chesterfield Canal & Reservoir Co.

LICENSE AND CERTIFICATE OF WATER RIGHT

Water License No. R-427 Amount- 700 Acre-Feet Priority- 5-12-1928

THIS IS TO CERTIFY That Chesterfield Canal & Reservoir Company, of Bancroft, County of Bannock, State of Idaho, made application for a permit to store and appropriate the public waters of the State of Idaho, dated May 12, 1928, and that Reservoir Permit No. 427 was issued on said application; that, on the 8th day of November, 1928, the holder of said permit made satisfactory proof of completion of works for the storage of 700 acre-feet of said water and that, on February 26, 1929, certificate of completion of reservoir and right to store water was issued thereunder; that, on the 8th day of November, 1928, Chesterfield Canal & Reservoir Company, of Bancroft, County of Bannock and State of Idaho, the holder of said permit, made proof to the satisfaction of the Commissioner of Reclamation of Idaho of a right to the use of the waters of Twenty-Four Mile Creek, a tributary of Portneuf River, for the purpose of irrigation and domestic use, under Reservoir Permit No. 427, of the Commissioner of Reclamation of Idaho, and that said right to the use of said waters has been perfected in accordance with the laws of Idaho and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 6 of Licenses, at page 3569, on the 26th day of February, 1929,

The right hereby confirmed dates from May 12, 1928.

The outlet of the said reservoir is located in the NE¹₄ of NE¹₄, Sec. 16, Twp. 6 South, Range 59 East, Boise Meridian.

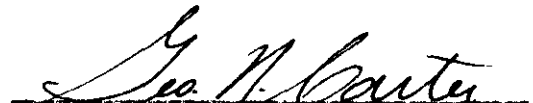

The amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for such purposes and shall not exceed 700 acre-feet annually, being a supplemental right to the decreed right now held by said Chesterfield Canal & Reservoir Company.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 8 o'clock A. M. on the 8th day of November, 1928, at Bancroft, County of Bannock, State of Idaho, before H. Van Slooten, Notary Public, proof will be submitted of the completion of works for the storage of 700 acre feet per annum of the waters of Twenty-Four Mile Creek and of the application to beneficial use of said water in accordance with the terms and conditions of Permit No. R-427, heretofore issued by the Dept. of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation, holding said permit, are: Chesterfield Canal and Reservoir Co., Bancroft, Idaho.

2. Said works will be fully completed on the date set for such completion, and the amount of water

which said works are capable of conducting to the place of use, in accordance with the plans accompanying the application for such permit, is 20 cubic feet per second.

3. The use to which said water has been applied is irrigation and domestic purposes and the amount applied to beneficial use is 20 cubic feet per second.

4. The place where said water is used is: W $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 21; SE $\frac{1}{4}$ SE $\frac{1}{4}$ and SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 20; SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 19; W $\frac{1}{4}$ NE $\frac{1}{4}$, W $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, and W $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 22; NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ and E $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 28; W $\frac{1}{4}$ NW $\frac{1}{4}$, and W $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 27; NE $\frac{1}{4}$, Sec. 32; NE $\frac{1}{4}$ and NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 33; W $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, and S $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 34; all in Township 6 S., Range 29 E., B. M.; and S $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$, Sec. 2; SW $\frac{1}{4}$ NW $\frac{1}{4}$ and W $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 2; NW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 19; W $\frac{1}{4}$ NW $\frac{1}{4}$ and W $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 11, all in Township 7 S., Range 29 E. B. M.

The date of priority which said user is prepared to establish is May 12, 1928.

Chesterfield Canal & Reservoir Co.,

Re: Permit No. R-427.

Mr. Earle V. Thorpe, Secretary,
Chesterfield Canal & Reservoir Co.,
Bancroft, Idaho.

Dear Sir:-

Depositions of yourself and two witnesses, together with the affidavit of publication for proof of completion of works and beneficial use of water under the above permit were duly received in this office and are satisfactory.

The statutory fee due this office for proof of completion of works where the amount of water claimed does not exceed 6.4 second feet (1600 acre-feet) is \$5.00 and, upon receipt of this amount, the certificate of completion of reservoir and right to store water will be issued the applicant herein.

Very truly yours,
GEO. N. CARTER,
Commissioner of Reclamation.

By _____
Chief Clerk.

PERMIT NO. B-427

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Earle B. Thorpe, Bancroft, Idaho, Agent for Trust Co., Bancroft, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Chesterfield Canal and Reservoir Co., Chesterfield, Idaho, Secretary,
Resolution of Board of Directors.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. R-427, May 29, 1928, 700 acre feet, Twenty-four Mile Creek, N 24° 30' E., 600
feet distant from the SW corner of Section 10, in Section 10, Twp. 6 S., R. 39 E. 10.

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. Irrigation, about 2000 to 2200 acres.

Ans. Earth dam, 11 feet high on bottom, face about 50 feet long, top, three-to-one slope on up stream face. Reservoir covers about 50 acres when full.
Feeder canal carrying about 20 cubic feet per second. Two distributing canals carrying
each about two cubic feet per second, total eleven miles long.

(Sign here.) Earle B. Thorpe

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, in Bancroft, Bannock
County of Bannock, State of Idaho, on this 3th
day of November, A. D. 1928.

Notary Public.

My Commission expires 2-13-31.

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. R-427.

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Earnest A. Madsen, Hatch, N. Idaho, farmer, Hatch, Idaho

Canal and Reservoir Co.

Ques. 2. Are you acquainted with Earle B. Thorpe, Secretary Chesterfield, the holder of Permit No. R-427, authorizing the diversion of 700 second-feet of the waters of Twenty-four Mile Creek, at Chesterfield for irrigation purposes? How long have you known him, and where does he reside?

Ans. Four years. Bancroft, Idaho.

Ques. 3. Have you read or heard read said Permit No. R-427, and are you familiar with its terms and conditions?

Ans. Yes. Yes.

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Yes. About 2000-2200 acres of gently rolling farm lands, clay loam, one-half inch per acre.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yes. Yes.

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. Reservoir 700 acre feet, earth dam 30 feet high over 1000 feet long; feeder canal 20 feet per second, two distributing canals each three cubic feet per second.

(Sign here.)

Earnest A. Madsen

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Bancroft County of Bannock, State of Idaho, on this 8th day of November, A. D. 1928.

Henry Van Dusen
Notary Public residing at Bancroft, Idaho.
My commission expires 2-13-31.

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. R-427.

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. John T. Whitworth, Farmer, Bancroft, Idaho.

Ques. 2. Are you acquainted with Earle B. Thorpe, Secretary of the Chesterfield Canal and Reservoir Co., the holder of Permit No. R-427, authorizing the diversion of 700 second-feet of the waters of Twenty-four Mile Creek, at Chesterfield for irrigation purposes? How long have you known him, and where does he reside?

Ans. Yes. Four years, Bancroft, Idaho.

Ques. 3. Have you read or heard read said Permit No. R-427, and are you familiar with its terms and conditions?

Ans. Yes. Yes.

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Yes. About 2000-2200 acres of rolling farm lands, one half inch per acre.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yes.

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. Earth Dam, to hold about 650-700 acre feet of water, head gates, 12 inch pipe, two canals for distributing and one feeder canal. Feeder carries about 20 cu. ft. per second and two distributing canals each about four cu. ft. per second.

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ans. Earle B. Thorpe, 38, Agent for Trust Co., Bancroft, Idaho.

Ans. Board of Directors.

Ans. R-427, May 29, 1928.

Ans. Twenty-four Mile Creek, N. 24° 30' E. 600 ft. distant from the SW corner of Section 10, Twp. 6 S., R. 39 E., EM, in SW¹/₄SW¹/₄, Sec. 10.

Ans. Earth dam, two canals, 2 cu-ft. per second each. East Side Canal and West Side Canal.

Ans. Irrigation. All cultivated land. Nearly all lands placed under alfalfa with a small acreage in grains.

[illegible]

107
Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. One half inch per acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Has all been used for several years.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

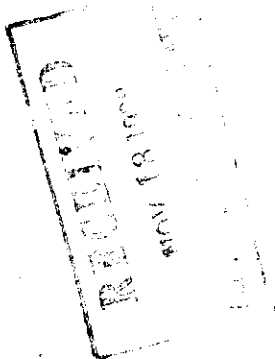

Ans. A few have used some flood waters and also a few springs additional.

(Sign) Ezekiel B. Thorpe

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Bancroft, County of Bannock, State of Idaho, on this 8th day of November, A. D. 1928.

PERMIT NO. R-427

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Earnest A. Madsen, 44, Hatch, Idaho, farmer, Hatch, Idaho.

Ques. 2. Are you acquainted with Earle B. Thorpe, Secretary of the Chesterfield Canal and Reservoir Co., the holder of Permit No. R-427? How long have you known him and where does he reside?

Ans. Four years, Bancroft, Idaho.

Ques. 3. Have you read or heard read said Permit No. R-427, and are you familiar with its provisions and conditions?

Ans. Yes. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Twenty-four Mile Creek, SW 1/4 Sec. 10, Twp. 6 S., R. 39, E. 1/4, Idaho. Earth dam, reservoir, head gates, one feeder canal and two distributing canals, total of about 11 miles of distributing canals.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 8 second feet. 8 second feet.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Alomst entirely for irrigation, small domestic use. I have checked the following as well as I can and I believe it covers the land fully, as stated.

PERMIT NO. R-427

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John T. Whitworth, 51, Farmer, Bancroft, Idaho.

Canal and Reservoir Co.

Ques. 2. Are you acquainted with Earle B. Thorpe, Secretary of the Chesterfield, the holder of Permit No. R-427? How long have you known him and where does he reside?

Ans. Yes. Four years, Bancroft, Idaho.

Ques. 3. Have you read or heard read said Permit No. R-427, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Twenty-four Mile Creek, point in Section 10, Twp. 6 S., R. 39 E. 1/4, Idaho.
Feeder Canal, Earth dam and reservoir, two distributing canals.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 8 second feet. About 8 second feet.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Small amount domestic and the rest for irrigation. I have checked the attached table and believe it fully answers the above question, and fully covers these lands.

Re: Permit No. R-427

MR. EARLE V. THORPE
S e c r e t a r y
Chesterfield Canal & Reservoir Co.
Bancroft, Idaho

Dear Sir:

In reply to your letter of November 3:

I beg to advise that it was not the intention of this office to hold up your proof of completion of works on account of the riprapping. This matter was called to your attention under the provision of the statute which provides for regular inspection of all dams by this department and the suggestion that this riprap be done was made as a result of an inspection made by the writer last fall.

I am pleased to note that you are making progress in this matter and will be pleased to have a report from you from time to time as the work proceeds.

I wired you yesterday, as follows:

"Reference Chesterfield permit stop you should proceed with proof on date set."

Inasmuch as your proof was set for this date at Bancroft, I take it that it is already made and that the depositions will be forwarded to this office when completed.

Yours very truly,

Assistant Commissioner
of Reclamation

Dear Sir: ReDams 39I, Permit R-427

Refering to your letter of Sept. 22nd, this was after you had been up and inspected our dam.

We have been rip-rapping where we had no willow mats for the last week, and expect to rock it all with the exception where the willow mats are in place and doing good, now we will not have this all finished by the time we prove up, but will finish this winter some time. The Company didnt feel able to do riprapping at the time we built the dam, but figured on doing some each year until all the upstream face was ~~protected~~. *protected*

Will we go ahead and prove up, or wait until we have rocked it all and you inspect it from your office?

I am,

Yours very truly

E. B. Thorpe
Secretary.

P.S.

*Time to prove up was set
for Nov 8th 1928

DEPARTMENT OF RECLAMATION BOISE

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS AND PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, **October 29, 1928.**

CHESTERFIELD CANAL & RESERVOIR CO.

**c/o H. Van Slooten,
Bancroft, Idaho.**

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of completion of works and beneficial use of water under Permit No. **R-427**.

DEPOSITION OF PERMIT HOLDER.

DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On **November 6, 1928**, the date set for proof, the enclosed forms (two for permit holder and two each for two disinterested witnesses) should be filled out and sworn to, at **Bancroft** before **H. Van Slooten, notary public.**

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

GEO. N. CARTER, ~~W. G. SEVERIDSEN~~

Commissioner of Reclamation.

Re: Dams 391
Permit R-427

MR. EARL B. THORPE,
Secretary, Chesterfield
Canal & Reservoir Co.,
Bancroft, Idaho.

Dear Sir:

I recently made an inspection of the reservoir dam of your company located on Twenty-four Mile Creek in connection with proofs of beneficial use and completion of works on your Permit No. R-427.

It was noted that the plans were not followed in the matter of placing rock riprap on the upstream face to prevent erosion. It was noted that willow mats had been placed a part of the way across the dam. Some erosion has taken place in portions of the dam where the willow mats were placed and also on the east end of the dam, where the embankment is unprotected.

Inasmuch as your company has already had one failure of this dam, I take it that you fully appreciate the necessity of giving ample protection, and as I know of no other means by which erosion on the upstream face of this dam can be prevented, except by placing a coat of rock riprap, I would suggest that you call this matter to the attention of the Board with a view of either getting the plans amended or placing the rock riprap, as indicated in the plans.

Assuring you that this department will be glad to cooperate with you in any way, I remain

Yours very truly,

Assistant Commissioner of
Reclamation

REPORT OF ENGINEER

PERMIT NO. _____

REPORT ON PROOF OF _____

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. R-427This proof is for Comp. Works & USE

In Water District No. _____

1. Name of applicant: Chesterfield Canal & Reservoir Co.2. Source of water supply: Twenty-four Mile Creek3. Location of point of diversion: Outlet Is in the NE 1/4 of Section 16T. 6 S R. 39 E., B.M. County of Bannock

4. Describe works as they exist, giving dimensions and capacities of same: _____

Dam across Twenty Four Mile Creek about 20 ft high
constructed of earth 2-1 down stream slopes and
3-1 upstream. Rip-raped on upstream slope with willow
mats. Some erosion started from wave action. Should
be rock and so recommending. Outlet & control adequate.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: _____

Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): (See Remarks)

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Water used to supplement decreed right.
Capacity of ditches adequate to deliver additional
water to all lands mentioned in Permit.

All lands mentioned in permit have been irrigated
by water from decreed rights. This right to storage
being used to supplement decreed right during
low water

This examination was made on the 13th day of Sept 1928

County BANNOCK

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion, and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make a plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

DEPARTMENT OF RECLAMATION
BOISE

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

August 1, 1928

Boise, Idaho,

Earl B. Thorpe, Agent
Chesterfield Canal & Res. Co.
Bancroft, Idaho

DEAR SIR:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. R-127.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before Nov. 29, 1928. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

GEO. W. CARTER

Gentlemen:

Attention: Mr. Earle B. Thorpe

Reference is made to your letter of April 5th, relative to enlargement of your reservoir on Twenty-four Mile Creek.

Inasmuch as you are asking for additional water, it will not be possible for you to amend your old permit. I would, therefore, suggest that you make application for enlargement of your reservoir and in this connection, for your information, I am sending you a copy of your original application, together with instructions and blank form for the new application.

Very truly yours,

Myron Swensen
Assistant Commissioner
of Reclamation
