Re: License No. 33614/29-2552

Dear Mr. Ward:

We have received the assignment of Ruby Y. Brown to Ronald and Bonnie Blake in connection with the above referenced license.

We wish to advise you, however, that the Department has no procedure for changing the records of ownership once a permit has been licensed. When a license is issued it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is specifically withheld in the sale transaction.

We will place the assignment in our file for future reference as to present ownership. We are returning the copy of the permit along with a copy of the license for your records.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

There was a field examination of the premises and the well sometime between June 29, 1972, and July 10, 1972. I cannot give you the exact date as we were away on vacation at that time. At last we have been able to get water to all the land we intend to irrigate under the above permit and would like to prove up on the well. Will you please advise what we need to do at this time. When the field representative comes out to inspect the premises it would be best if he would let Mr. Brown know so he could be available to show him the areas. Permit No. G-33614/29-2552

Dear Mr. Clay:

Herewith you will find signed authorization by my husband for you to publish notice of existing water permit. There is one thing I notice and that is you either refer to the Permit No. as above listed or just as 29-2552, while the original permit only had G 33614. What is the correct number?

Very truly yours,

Re: Permit No. G-33614 (New No. 29-2552)

Mr. Travis L. Brown
Box 882
Pocatello, Idaho 83201

Dear Mr. Brown:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Dorian Clay
