Dear Miss Brown:

Thank you for your letter of March 6, 1968 on the above referenced permit. We are returning Mr. Henriksen's check in the amount of \$7.00.

After talking with our field examiner, it is determined that if the orchard was irrigated then he had not been able to identify the entire irrigation system. Therefore, we shall re-examine permit No. 33386 during the 1968 irrigation season.

Please disregard our fee letter at this time. We shall correspond with you after the field examination. Our examiner will make every effort to contact Mr. Arthur Henriksen during the examination. Please contact us if we may be of further assistance.

Re: Arthur J. Henriksen-permit No. 33386

Dear Mr. McEldowney:

Mrs. Henriksen brought to this office today your letter to them dated February 9, 1968, which says they are only allowed .03 c.f.s. of water and we cannot understand this. The letter says it is allowed for domestic and lawn irrigation, however, the application was for domestic and irrigation for 3.77 acres.

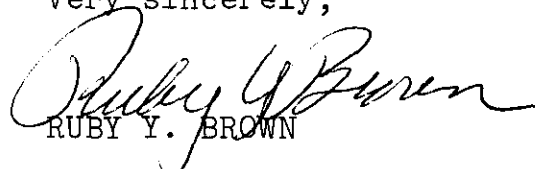

We are wondering when the examiner came out if he overlooked the orchard which they have been watering. It is quite a distance from the house, down by where Mink Creek runs through the property.

Mr. Henriksen uses the water both for domestic and the irrigation of his orchard and the pasture grass on the remainder of his acreage and the permitted use appears to be for only 1 acre.

Is there anyway this can be corrected? Mr. Henricksen's check for \$7.00 is enclosed as your letter said it must be in within 30 days from the date of your letter.

Please let us know what we can do to correct this and show the water can be used for both domestic and irrigation covering the full 3.77 acres. They have utilized this water for three years for both domestic and irrigation.

Very sincerely,

RUBY Y. BROWN

Dear Mr. Henriksen:

We acknowledge receipt of the depositions and affidavit of publication in the The Intermountain, Pocatello, Idaho, submitted as proof of completion of works and beneficial use on Permit G-33386.

Before a certificate and license of water right can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Very truly yours,

Donald W. McEldowney

Remarks: The present water being utilized is from the old A. P. Say water right and out of the upper ditch. The Say farm was subdivided into small acreages and the water also divided. In dry years the water is sometimes cut off as early as the 1st of June. Even in years of plenty of water it is always off by the time a person needs water and this water is to supplement the existing water right and be able to raise crops on the land without having them die from lack of water after the present water right is shut off.
