Re: Permits No. 33253/29-2535
33271/29-2536
33272/29-2537

Mr. Max D. Rigby
Bancroft,
Idaho 83217

Dear Mr. Rigby:

A representative of this Department has made an examination of the works covered by the above referenced permits and has found the following:

Permit 33253/29-2535

Quantity of water diverted: 4.58 cfs

Amount of water that can be recognized as beneficially used under
Idaho law: 4.58 cfs

The maximum quantity diverted shall not exceed 819 acre feet per year.

Point of diversion: NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 16, Twp. 7 S, Rge. 39 E, B.M.

Beneficial use: Irrigation of 273 acres within the N $\frac{1}{2}$ of Sec. 16,
Twp. 7 S, Rge. 39 E, B.M.

Priority date established: Oct. 9, 1966

Our examiner actually found 317 acres being irrigated within the area covered by Permit 33253/29-2535, however, the permit was issued for only 273 acres. In order to cover the additional 44 acres, it will be necessary to file an application for an additional permit. We have partially completed an application for your use. You will note that we have listed the entire 317 acres on the new application with a diversion rate of 1.76 cfs. The 1.76 cfs together with the 4.58 cfs proposed under the license for permit 33253/29-2535 would equal an inch per acre for the full 317 acres.

29 2537

Permit 33271/29-2536

Quantity of water diverted: 3.14 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 3.14 cfs

The maximum quantity diverted shall not exceed 600 acre feet per year.

Point of diversion: SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 16, Twp. 8 S, Rge. 39 E, B.M.

Beneficial use: Irrigation of 200 acres within the NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 16, Twp. 8 S, Rge. 39 E, B.M.

Priority date established: Oct. 9, 1966

Permit 33272/29-2537

Quantity of water diverted: 1.90 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.90 cfs

The maximum quantity diverted shall not exceed 285 acre feet per year.

Point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, Twp. 8 S, Rge. 39 E, B.M.

Beneficial use: Irrigation of 95 acres within the S $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 16, Twp. 8 S, Rge. 39 E, B.M.

Priority date established: Oct. 9, 1966

The place of use found by our examiner differs from that listed under permit 33272/29-2537. Therefore, before a water license can be issued, it will be necessary to amend the permit. We have enclosed a partially completed application for amendment. Please note that there is a mandatory filing fee of \$10.00 for amendment applications.

If you will please sign the enclosed amendment form and return it to this office with a \$10.00 fee, water licenses for all three permits will be issued as set forth in this letter. If you do not concur with these findings or have any questions, please contact us within 15 days of the date of this letter.

Sincerely,

BOBBY D. FLEENOR

Dear Mr. Rigby:

One of the conditions of the above referenced permits was that proof of beneficial use be submitted to this Department on or before October 20, 1972.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204 of the Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or litigation, more than one extension of time can be granted.

Enclosed are affidavit forms which must be used to submit the required proof of beneficial use. Either the proof affidavits or requests for extensions must be received by this office on or before the above mentioned date, otherwise the permits will lapse and be of no further force or effect.

Dear Mr. Rigby:

We are enclosing APPROVED copies of your applications for extension of time filed in behalf of the above referenced permits. Each application has been approved so that proof of beneficial use is due under all three on October 20, 1972.

We wish to inform you that under the provisions of Section 42-204 of the Idaho Code that only one extension of time can be granted. Therefore, if your project is only partially completed by October 20, 1972, then you will be required to submit proof of the extent of beneficial use completed under the three permits, and any water development will have to be made under a new application.

Dear Mr. Rigby:

We have received your applications for extension of time in connection with the above referenced permits. However, before we can determine whether you have proceeded with diligence on the project, we need to know what work has been done.

The information on the extension applications for 29-2535 and 29-2536 seem to indicate that you have developed all of the land allowed under the permits and are attempting to obtain more land. The amount of water or the number of acres cannot be increased above that of the original permit, as that would constitute an expansion of the right which must be covered by a new application for permit.

Please send us within 20 days information concerning the amount of work that has been done on your projects. If you have any questions regarding this matter, please contact us.

Mr. Keith Higgenson

Dear Mr. Higgenson,

I would like to apply for an extension of time of some months on making completion and proof of beneficial use of water on the above listed permit Nos for the following reasons.

I would like to extend the use of water across the railroad and highway to additional land and I am waiting to see if the R.R. and Hwy will grant permission to cross with pipe from permit No 29-2536 to help with No 29-2537 which hasn't proven too good by pumping but hasn't had the final development test as yet.

In regard to permit No 29-2535 I am trying to purchase the land next to this and if the purchase agreement can be made I would like to apply for additional water on this permit. I would appreciate receiving the extension of time very much.

Thank you

Sincerely

" " G-33272 (New No. 29-2537)

Mr. Max D. Rigby
Box 513
Bancroft, Idaho 83217

Dear Mr. Rigby:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed orders modify your permits to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notices to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.
