Dear Mr. McEldowney,

Reference Permit # G-28827

Your department has not completed the inspection of this irrigation system. The wells all around us have been inspected.

For purposes of estate planning and financial arrangements it would be well if the inspection could be made and the license issued for the underground water rights.

Would you please inform me when this can be taken care of.

We have completed the entire work on permit #32908 and will have that advertised in the paper so that both wells can be inspected at the same time, if that is possible.

Thank you.

Dear Mr. Hatch:

We acknowledge receipt of the depositions and affidavit of publication in the
Caribou County Sun submitted as proof of com-
pletion of works and beneficial use on Permit G-32908.

Before a certificate and license of water right can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.
