Dear Mr. Armstrong:

On September 15, 1972, a field examination was performed for the land listed in Permit No. 29-2512. The legal description that you originally filed on the land, Section 21, Township 10S, Range 35E, was found to be incorrect. The description should have been listed on the permit as Section 21, Township 10S, Range 36E.

Under provisions of the Idaho Code, Section 42-211, a change can be made in the legal description of the point of diversion if the rights of others would not be adversely affected thereby. The same applies to the place of use.

For your convenience, the form required to initiate action on this matter is enclosed and properly filled out. Please review the application for amendment, and if you agree with its contents, please sign and return to this office with the statutory filing fee of \$10.

If you have any questions, please contact this office.

Very truly yours,

Dear Mr. Armstrong:

One of the conditions of the approval of your permit no. G-32507/29-2512 was that proof of application of the water to beneficial use be submitted to this office on or before September 3, 1970.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-32507/29-2512

Mr. Howard L. Armstrong
P.O. Box 8
Post Falls Idaho

Dear Mr. Armstrong:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Also, when you send in the advertising order, will you please clarify the point of diversion.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
