Pocatello, Idaho 83201

Dear Mr. Hayden:

One of the conditions of approval of your water Permit No. 29-2509 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 6, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

SUBJECT Application for Amendment No. 29-2509

Mr. Hayden visited this office yesterday and after considerable discussion of his water development plans it appeared that amending his permit No. 29-2509 was the best procedure. Although it is a bit irregular, I think, to use an amendment to propose comingling of water, basically the amendment proposes adding a well in Sec. 3, pumping the water into Clifton Creek and rediverting it from Rattlesnake Creek, below its confluence ^{with} Clifton Creek in Sec. 8.

Clifton Creek is a decreed stream, and it appears to me that it is probable that the well in Sec. 3 could interfere with the flow of Clifton Creek. Therefore, I recommend that this amendment be advertised. This office will be happy to do so if you agree that it is necessary.

Dear Sir:

I am writing regarding three permits -

Subterranean Waters	No. 32466
Water from springs	No. 32321
For storage	No. R-1174

No. 32466

My partner, Carl Hayden, checked with your office sometime back and discovered the driller had not filed a log of this well with you. I am enclosing a copy of all the information I have for your file.

As you see, the well tested only about 30 inches so to date we have not installed a pump. We now feel we should deepen the well to try to increase the flow.

Do I need another permit? Do I extend the time on this one past August, 1970 and retain original filing date? If not, what must I have operating by the August, 1970 date?

No. 32321

I believe I have completed all the requirements on this permit. Last fall I was contacted by an engineer from your office or representing you who was, I believe, going to verify the completion and proof of use of the water. I have never heard anything further on this permit or his inspection. Was it O.K.'d? Is there something wrong or is there something more I should do?

No. R-1174

After obtaining this permit the local SCS engineers mapped the

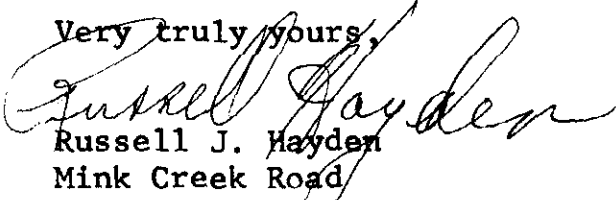

32466

area and discouraged me from constructing this dam as the small storage would not justify the cost. I would now like to build a much smaller pond for fish. I have already obtained a permit from the Fish and Game. It will also be used for stock pond and a minor amount of irrigation. Can I use this same permit? The pond will be within a few hundred feet of the first site.

I would also like an application form for the appropriation of subterranean waters.

Thank you kindly.

Re: Permit No. G-32466/29-2509

Mr. Russell J. Hayden

Dear Mr. Hayden:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.
