Re: Beneficial use made from J. R. Simplot Company,
Pocatello, Idaho, deep-water wells

Dear Ms. Brown:

I appreciate your answer to my earlier letter. However, I have been unable to spend time in Boise as I originally thought possible.

The J. R. Simplot Company, located west of Pocatello, Idaho, in Power County, has indicated that they have three deep-water wells on the property from which they draw their water. An approximate legal description would find those wells in the SW $\frac{1}{4}$ of Section 7, Township 6 South, Range 34, E., Boise Meridian.

What we are interested in is identifying the amount of water that may be pumped from each well for beneficial use for the J. R. Simplot Company. If you do not have ready access to that information, could you identify some state office in the vicinity of Pocatello that may have such information.

Thank you for your assistance.

Sincerely,

BOYD B. WHITE

8. What large stream would the water here appropriated finally reach? Portneuf River

Remarks: Mr. George Talevich along

Mr. Talevich reports that when all three wells are in operation, well #5 produces 2280 G.P.M., however when only two wells are producing, well #5 yields 3000 G.P.M.

3000 G.P.M. = 333 minor inches or 6.66 cfs

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Dear Mr. Winans:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the POWER COUNTY PRESS, all submitted in proof of completion of works and beneficial use on Permit No. G-32317

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,
