Gentlemen:

A representative of this department has made an examination of the works covered by your Permit No. 32017/29-2495 and has found the following:

Quantity of water diverted: 0.61 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.61 cfs

The maximum quantity diverted shall not exceed 122.5 acre feet per season.

Beneficial Use: Irrigation of 35 acres within the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 36,

Twp. 6S, Rge. 34E, B.M.

Point of diversion: SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 36, Twp. 6S, Rge. 34E, B.M.

The priority date established is : August 12, 1964

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Very truly yours,

NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Burt E. Purkey and Leslie Earl Purkey, 2011 South 2nd Avenue, Pocatello, Idaho has received an approved permit No. G-32017 issued by the Idaho State Reclamation Department authorizing the diversion ~~average~~ of 0.74 cubic feet per second ~~1000 feet per annum~~ of water from a ground water source, subject to all prior rights. The priority to be established under this permit is August 11, 1964 and the permit was approved August 14, 1964. Water is to be diverted by well and pump from a point within the SE1/4SW1/4, Sec. 36, T. 6 S, R. 34 E, B.M., Bannock County to be used for irrigation in the SE1/4SW1/4, Sec. 36, T. 6 S, R. 34 E, B.M.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before August 14, 1969. Any protests against the issuance of a license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

Re: Permit No. G-32017

Burt E. Purkey and Leslie Earl Purkey
2011 South 2nd Avenue
Pocatello, Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Gentlemen:

G-32017 One of the conditions of the approval of your permit
_____ was that proof of application of the water to
beneficial use be submitted to this office on or before _____
August 14 1969 .

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:--

Re: Application for Water Permit
Burt E. Purkey.

I have your favor of the 3rd., inst., returning to me the application as signed by Mr. Purkey, and also his check made out to your office, for \$5.00.

Herewith I now return to you the application, with the corrections which you indicate are necessary, and I hope the application is now acceptable. If not, please indicate what more you need, and send it back to me, so I can supply anything that is missing.

Regarding item 13, mentioned in your letter, where you ask the applicant state the "quantity of water, source and date", when I talked with him ^(my client) this morning in my office, he again stated he and his brother have only water enough out of their present right to irrigate 3 acres out of the 40 acres they want irrigated so they can successfully grow crops. The land is located almost at the end of a ditch, and the water right they have from Ft. Hall yields a very small amount of water for irrigation for this 40 acres, enough only to successfully irrigate 3 acres. They plan to irrigate the remaining 40 acres from the Well they will ~~have~~ drilled.

The source of the Ft. Hall Water right is impossible to definitely define. I talked with Al Young of Ft. Hall this morning over the 'phone, and he stated some water out of Ft. Hall has a right dated 1891, out of Snake River; and another dated 1911, or 1912; a storage right out of Blackfoot Reservoir, date, 1907; a Sand Creek Water right, 300 Sec. ft., date, Feb. 6, 1928. All of this is classified as Ft. Hall water. Mr. Purkey stated to me this morning the right to the land described in the application is the year 1913. This is the best we can do respecting the date of the water right applicant now has, enough to irrigate 3 acres.

As you will see the point of diversion (location of the Well) is very close to the SE corner of the SE1SW1 Sec. 36.

Trusting the application will now be accepted, I herewith enclose same, as corrected, and applicant's check for \$5.00, and await your action thereon. Sincerely yours, *H. J. Swanson*

Dear Mr. Swanson:

Returned herewith subject application, with attached check, for corrections.

Item #1: Are Burt E. Purkey & Leslie Earl Purkey partners? If so, permit should show both names.

Item #2: was changed because of statutorial limitations, to 1 miner's inch per acre, i. e., 37 inches for the 37 acres to be irrigated:

Item #5: "of land" is superfluous.

Item #10: The statutorial maximum time allowed to complete the works and prove beneficial use is 5 years. Proofs may be made any time within this period if holder is ready to make them.

Item #12 II: need not be completed unless holder is a corporation.

Item #13: Please state quantity of water, source and date.

Please make corrections and return all papers with check attached to this office.

Very truly yours,
