Dear Mr. Noreen:

We are in receipt of your Proof of Application of Water to Beneficial Use. In reviewing your Proof we find that article 5 has not been completed. It is necessary for you to state the amount of water which has been applied, and for what purpose, and, the period of the year which the water is used.

Also, article 5-b should give the total amount appropriated. The amount can be determined by using a standard sized pail, preferably a 5 gallon bucket, by using a stop-clock and seeing how many seconds it takes to fill the bucket a certain amount of times. This will give the gallons per minute.

We are returning a copy of the Proof so you can complete the blanks under article 5.

Very truly yours,

Re: Permit No. G-31921

Andrew C. Noreen
Route 1 S, Box 256,
Pocatello, Idaho

Dear Mr. Noreen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,
