ATTENTION: Mr. Ed Allen

Gentlemen:

On the affidavit you submitted as proof of beneficial use in connection with the above referenced permit, we find that your company has had a name change since the filing of the permit. The Department feels that in order for us to accept this change without making for questions in the future it would be to your advantage to submit an assignment assigning the permit from your former title, Salt Lake Pipe Line Company, to the Chevron Pipe Line Company, your present title. We have enclosed a form to be used in this matter.

The Department should also like to advise you that the existence of your permit needs to be advertised before we can continue with the licensing process. We have enclosed a proposed advertisement to be published once a week for two consecutive weekly issues of the Power County Press, American Falls, Idaho, at your expense. If you agree with the proposed advertisement, sign the form II or the form authorizing the Department to publish the notice and return it to the Department along with the assignment.

The Department is at your disposal if you have any further questions.

Very truly yours,

IN THE MATTER OF PERMIT NO. G-31681)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

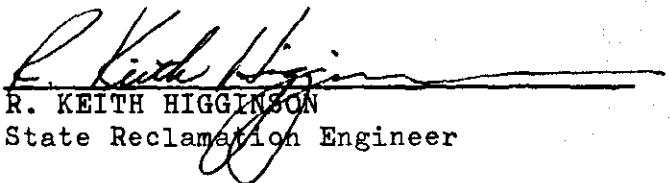

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. G-31681 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before February 3, 1969. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for Completion of Works may be grounds for cancellation at the instance of the Department.

Dated this 3 day of December, 19 68.

Re: Permit No. G-31681

Salt Lake Pipe Line Company
P. O. Box 117
Salt Lake City, Utah

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Gentlemen:

One of the conditions of the approval of your permit G-31681 was that proof of application of the water to beneficial use be submitted to this office on or before February 3, 1969, ~~March 3, 1969~~

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Newton:

In line with our telephone conversation today we are enclosing herewith application forms for making a ground water filing.

As requested we suggest the quantity of water applied for can be 500 g. p. m. or 1.2 c.f.s.

The use can be Fire Protection.

The work may be started before the application is approved providing the beneficial use of the water is not commenced until approval has been verified and on record in this office.

Trust this is in agreement with your desire.
