Re: Permit No. 31557 (U.S.A. Forest Service - Skyline Ski Area)

Dear Mr. Higginson:

With reference to the above-captioned permit, a hearing was held in my office on November 17, 1967, pursuant to notice duly published in the Idaho State Journal. At that time and place the hearing was conducted and proof was submitted in support of the application of water to beneficial use, under this permit.

Two witnesses and the permit holder were duly sworn and testimony was taken and reduced to deposition form, upon administering the necessary oaths.

At this time, this office is submitting a final report to the Department of Reclamation, transmitting the sworn deposition of Charles D. Hall, witness; of Gray D. Reynolds, Witness; and of Gilbert L. Farr, Forester for the United States Forest Service, acting on behalf of his principal, the permit holder herein.

I have talked with the managing editor of the Idaho State Journal and am advised that Proof of Publication of the "Notice of Proof" was executed and transmitted to the Department of Reclamation for appropriate filing. Please notify my office if you have not received the Proof of Publication by time these documents reach you.

Thank you, and I am transmitting an information copy of this letter to both Floyd Iverson, Regional Forester in Ogden, Utah, and to Mr. Gilbert L. Farr, of the Caribou National Forest office here in Pocatello, Idaho. If anything further is required of this office, please advise. Thank you for your courtesy and assistance.

Every good wish,

Gentlemen:

Proof of ~~completion of work~~ and application of water to beneficial use for the above referenced permit is due not later than November 29, 1967.

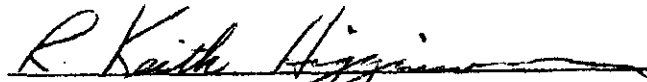

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

Gentlemen:

Under the terms of your Permit No. 31557 you are required to complete your diversion works on or before Nov. 29, 1966. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the said permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
