RE: Transfer No. 29-2481

DATE: August 7, 1978

As indicated by the warranty deed, Gary Hatch owns those lands in Sec. 8 originally covered by this license. The remainder of the property is presently owned by his brother. Since Gary is going to drill a well for his proposed sod farm, he decided to transfer water from License No. 29-2481 on to his brother's property which is presently being irrigated from the present point of diversion. Since the original right is remaining in tact, with a reduction in acreage, Item B was not completed.

Gentlemen:

Mr. A. Paul Hatch of Bancroft, Idaho, informs us that he is now prepared to make proof of completion of works and application of water to beneficial use under Permits No. G-31404 and G-31405. However, under 31404, it appears that an amendment should be filed as to land to be irrigated. As originally filed, the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 34, Township 6 South, Range 39 East of the Boise Meridian, was included, but this particular forty should be dropped and in lieu thereof Lot 4, Section 3, Township 7 South, Range 39 East of the Boise Meridian, should be substituted.

Would you please forward necessary forms to cover the application for the amendment for the substitution of the land as indicated and other necessary forms for use in connection with submitting proof of completion under the cited permits.

Very truly yours,

Leonard O. Kingsford

Re: Application for Permit

A. Paul Hatch
Sancroft, Idaho

Dear Mr. Hatch:

Returned herewith is your application for permit with attached check for \$6.75 filing fee.

Under 4 and on the maps you show Twp. 75 which we assume should be 7 S to be in your area. You did not show the County in which the diversion is shown.

You did not complete the answer under 12. We have shown, in pencil, the land which you should check to be sure it is correct.

You did not answer 13.

Kindly correct as necessary, show additional information and return with the check for processing.

Very truly yours,
