Re: Permit No. G-30842

City of Chubbuck
Chubbuck, Idaho 83201

Gentlemen:

In reviewing the Report of the Field Examiner, I find that some additional information is required before a Water License may be issued.

I need to determine the volume of water used annually by your city, both from the well specified on the above referenced permit and all other wells used by the city. Please inform me as to the number of water users and the total number of people served. Also, please provide a listing of water used by any large water users, stating the annual use and the months used (a monthly breakdown if there is much variation). We must, also, have the amount used for irrigation of parks and public lands.

If recorded data is not available, estimates of the volume of water used each month will suffice. If estimates are submitted, please state your method of arriving at these estimates. Also, provide any facts and figures that would help to substantiate these estimates.

If you will provide this information, we shall continue to process your permit. If we can be of any assistance, please advise.

Very truly yours,

Att: Dean Reynolds

Dear Mr. Reynolds:

We are enclosing a copy of the print prepared for Greener Pastures Sub-Division, which shows the water system and pumphouse drilled to service this area. The location of this sub-division is immediately northwest of the city of Chubbuck. The well and system has been purchased by Chubbuck, and is interconnected with the Chubbuck water system with an 8-inch pipe. The well was drilled by Ivan Bortz of Grace, Idaho, and was completed 7 December 1962. The well log and report is on file in your department. Agricultural Services of Blackfoot installed a 750-gallon per minute deep well water lubricated turbine Layne pump. The pump is set at 155-feet, and a 50 H.P. U.S. electric motor drives the pump.

If any additional information is needed concerning this, we would be very glad to obtain it for you.

Sincerely,

Howard L. Burkhardt

Dear Mr. and Mrs. Shoemaker:

It appearing to the State Reclamation Engineer that the terms and conditions of Permit G-30842 to appropriate the public waters of the State of Idaho, have not been complied with as to failure to submit proof of completion of works and beneficial use of water due December 7, 1967,

you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the State Reclamation Engineer on or before March 5, 1968, why said permit should not be cancelled.

Permit G-30842 claims the use of 1.11 c.f.s. of water. The point of diversion was to be located NW1/4SW1/4, Sec. 34, T. 5 S, R. 34 E, B.M., Bannock County, and the permit was approved December 7, 1962.

Re: Permit No. G-30842

Herman J. McDevitt
City Attorney
Village of Chubbuck
Chubbuck, Idaho

Dear Mr. McDevitt:

Thank you for your letter of October 26, 1967, on the above referenced permit.

With the lack of additional information, it would appear to the Department of Reclamation that the permit in question has been purchased by the Village of Chubbuck. Therefore, in order that Permit No. G-30842 be perfected and the well in question be covered by a water right, it would be necessary for the current holder of Permit No. G-30842 to submit the required proof of completion of works and application of water to beneficial use.

Inasmuch as an application for permit is personal property and belongs to the original applicant until such time as the permit becomes a water license, the water license is then appurtenant to the property and or use. Therefore, it will be necessary for the Village of Chubbuck to obtain an assignment from Mr. and Mrs. J. Blaine Shoemaker. This form should assign all the right, title, and interest of this permit to the Village of Chubbuck. The required forms are enclosed.

We are also enclosing a current set of forms 36 and 11, notice of proofs of completion of works. These forms have been partially filled out in anticipation of the required assignment. Upon completing the blanks on the notice of publication and obtaining the required assignment, forward all documents back to the Department of Reclamation and we will assist you in completing the required proof, and advise you of the additional requirements involved.

Please feel free to contact us if we may be of further assistance.

Very truly yours,

Re: Permit G-30842

Dear Keith:

I recently received in the mail one of your Form 36A letters, a Form 11, and a Form 36 from J. Blaine and Betty M. Shoemaker of 383 Yellowstone Avenue, Pocatello. Attached was a handwritten note, photocopy enclosed.

I frankly don't understand it unless this would apply to a Well at the Greener Pastures Subdivision North of Chubbuck, Idaho, which Well and pump and personal property was recently sold under contract by the holder to the Village of Chubbuck.

I am the attorney for the City of Chubbuck and we have been through one Hearing with the Public Utilities Commission, who recognized the transfer. However, I don't know that this applies to your case regarding Permit G-30842. If so, kindly furnish me the proper forms to make proof in behalf of the City of Chubbuck, as this water supply is now hooked into the City of Chubbuck and has for many months been the sole source of domestic water to about twenty homes in the Greener Pastures area and via connecting lines to over six hundred in the City of Chubbuck.

This Well (if it's the one I'm thinking of) was mixed up in a Bankruptcy of Mr. Shoemaker and his businesses. The City of Chubbuck purchased from those persons (including Mr. Shoemaker) who acquired the rights at the Bankruptcy Sale. Evidently they did not bother to change the name on the Permit. This is par for the course.

Dear Mr. & Mrs. Shoemaker:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than December 7, 1967.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

Dear Mr. Shoemaker:

Returned herewith is your application for permit with attached check for \$5.25, the proper filing fee.

My letter of November 15th explained that the point of diversion and place of use of water, as shown on the application, does not agree with the maps of your subdivision. There have not been any corrections.

Kindly see that the application and the map agree as to the point of diversion and place of use of the water before the application is returned to this office.

Very truly yours,

Dear Mr. Shoemaker:

Returned herewith is your application for permit with attached check for \$16.00 for corrections and proper fees.

The fee for 500 gallons per minute, or 1.11 cubic feet per second is \$5.25.

The application shows the point of diversion and the place of use as SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 34, T. 5 S., R. 34 E., whereas the subdivision plat shows the point of diversion is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 34, and the place of use is in the W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 34.

The sketch on our Form No. 0 is not to scale and does not show the section, township and range. On one map we show in pencil, the approximate area as shown on the subdivision plat.

Kindly correct and return with the proper filing fee immediately.

Very truly yours,
