Mr. Roy F. Hatch

Dear Mr. Hatch:

Thank you for your recent letter concerning the licensing of the above referenced permit. You are correct in your statement that License No. 22177/29-2304 is for irrigation of the same land.

Upon receipt of the \$15.00 licensing fee, the Department will issue a water license under Permit 30586/29-2464 as follows:

Quantity of water diverted: 1.38 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.33 cfs

Beneficial use: Irrigation of 170 acres within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ (20) SW $\frac{1}{4}$ [150], Sec. 13, Twp. 7S, Rge. 39E, B.M.

Point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, Twp. 7S, Rge. 39E, B.M.

Priority date established: July 20, 1962

If you have any questions regarding this proposed license, please contact us within 30 days of the date of this letter.

Sincerely,

Dear Sir;

I have a letter dated May 15, 1972 addressed to Mr. R.O. Hatch. Mr Hatch is deceased and I am not familiar with all the information received in the letter. I am not surprised that your examiner found two wells when he came, as Mr Hatch had previously filed one well in 1951 and received a Completion of Works and a Permit No. 22177. I am therefore surprised that your records fail to indicate that there was enough water to irrigate said acreage.

If I can be of further assistance to you please feel free to contact me.

Sincerely,

Roy F. Hatch

Mr. R. O. Hatch
Bancroft,
Idaho 83217

Dear Mr. Hatch:

A representative of this Department has made an examination of the works covered by your permit No. 30586/29-2464 and has found the following:

Quantity of water diverted: 1.38 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.33 cfs

The maximum quantity of water diverted shall not exceed 510 acre feet per year.

Beneficial use: Irrigation of 170 acres within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ (20), SW $\frac{1}{4}$ (150), Sec. 13, Twp. 7 S, Rge. 39 E, B. M.

Point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$ (2 points), Sec. 13, Twp. 7 S, Rge. 39 E, B. M.

The priority date established: July 20, 1962

As your permit only covers one point of diversion within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 13 and our field examiner found two wells, it will be necessary for you to amend the permit before a license can be issued. We are enclosing a partially completed application for amendment for your use in this matter. Please complete the application and return it to this office with a \$10.00 filing fee. There is also a \$15.00 licensing fee due; therefore, a fee totaling \$25.00 must be received within 30 days of the date of this letter in order that we can issue your Water License as set forth above. If you do not concur with these findings, please contact us.

You should also be aware that any ground water development after March 25, 1963, must be by means of a valid permit. Our records fail to indicate that you have a right to irrigate the balance of the acreage being irrigated from these wells. Please review the matter and if you do not have another permit, please file an application for permit before the next irrigation season.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Dear Mr. Hatch:

We acknowledge receipt of the depositions and affidavit of publication in the Caribou County Sun, Soda Springs, Idaho, submitted as proof of completion of works and beneficial use on Permit G-30586.

Before a certificate and license of water right can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Very truly yours,

Dear Mr. Hatch:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30586. The proofs are to be made ~~at~~ at ~~the~~ at on the 8th day of July, 19 67, before Christine Hatch, Bancroft, Idaho, Notary Public.

As of this date, we have mailed the Notice to the ACaribou County Sun, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Re: Permit G-30586

R. O. Hatch
Bancroft, Idaho

Dear Mr. Hatch:

We are in receipt of your correspondence of May 20, 1967; however, we are lost at understanding what you desire. Apparently you have written a letter on an amendment form. If our interpretation is correct, you desire to prove completion of works and application of water to beneficial use under this permit.

Therefore, we are forwarding to you a partially completed form 36 and 11 for your review. If you find the form 36 to be in order, please fill out the notary public portion at the top of this form, entering a date to appear and the name and complete address of the notary public. Then sign the attached form 11 which is authorization for us to publish in a local newspaper at your expense; returning all papers to this office promptly.

Upon receipt of these completed forms, we will furnish you with further instructions necessary for proving completion of works and beneficial use under Permit G-30586.

Please contact us if we may be of further assistance.

Very truly yours,

Donald W. McEldowney

Re: Permit No. G-30586

R. O. Hatch
Bancroft, Idaho

Dear Mr. Hatch:

We are in receipt of your notice of publication forms 36 and 11 for the above referenced permit.

Several discrepancies are noted between the notice you have supplied us and your original permit. They are as follows: the point of diversion of permit G-30586 is NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, T. 7 S, R. 39 E, B.M. You have listed on the notice under statement 4, the point of diversion being in SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 13, T. 7 S, R. 39 E, B.M. If the latter is the correct legal description of your point of diversion, you are required to amend your permit to the correct description. We are enclosing an amendment form for the point of diversion for which there is a \$1.00 recording fee.

Also noted is that the land list of permit G-30586 now reads SW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 13, T. 7 S, R. 39 E, B.M.; whereas, under statement 5 of the notice you have listed the entire S $\frac{1}{4}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$, Sec. 13, T. 7 S, R. 39 E, B.M. Therefore, you have included the SW $\frac{1}{4}$ NW $\frac{1}{4}$ which was not originally included in your permit. We are also enclosing a land list amendment for which there is a \$1.00 recording fee.

Please be advised that if you do amend your permit to include the SW $\frac{1}{4}$ NW $\frac{1}{4}$ which will then increase your acreage, we will be required to reduce the priority of July 20, 1962 which you are trying to establish, to the date of the amendment of the land list.

Please contact us if we may be of further assistance to you in this matter. You are required to reply to this letter within 20 days.

Very truly yours,

Donald W. McEldowney

Re: Permit No. G - 30586

R. O. Hatch
Bancroft, Idaho
83217

Dear Mr. Hatch:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30586 are due not later than **July 27, 1967**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Mr. R. O. Hatch,

Dear Mr. Hatch:

We enclose Permit No. **G-30586** in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. **G-7191** which was issued covering payment in the amount of \$ **5.25** for the filing fee of the above mentioned permit. ~~XXXXXXXXXXXXXXX~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
