Re: Application No. G-37670, Dennis R. Teuscher

Gentlemen:

Thank you for calling our attention to the oversights in the application originally submitted. As noted on the corrected copy, the well is 500 feet north of the SW 16th quarter.

It is contemplated: first, that the well will be used by more than one person, namely, to supply domestic water for a neighbor, and second, that the use will not be constant at 60 gallons per minute, but rather intermittent as needed. The 60 gallons per minute is the maximum capacity.

Very truly yours,

GEE & HARGRAVES

Attention: Merrill K. Gee

Dear Mr. Gee:

Returned herewith is the application for permit with attached receipt No. G-5885 for the \$5.00 application fee.

The amount of water claimed, 60 gallons per minute, or approximately 7 miner's inches seems excessive for domestic use by one individual, even if irrigation for 2 acres is included. The maps show a circle in Lot 4 of Cedarvale Tracts which we assume is the location of the well; however the location given below "700' North" would place the well approximately 200' farther north.

Kindly correct as necessary and return.
