Mr. Jerry L. Wray
249 East 3rd North
Soda Springs, Idaho 83276

Dear Mr. Wray:

We have received the assignment submitted in connection with the above referenced water right license.

We wish to advise you, however, that the Department has no procedure for changing the records of ownership once a permit has been licensed. When a license is issued it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is specifically withheld in the sale transaction. We will place the assignment in our file, however, for future reference as to present ownership.

We also wish to advise you that the amount of water under this license cannot be increased. To develop more water it will be necessary to follow the statutory procedure and file an application for permit with the Department.

Enclosed please find an application form for your consideration. If you have any questions regarding this matter, it may be more convenient for you to contact our Eastern District office at 1515 Lincoln Road, Idaho Falls, Idaho 83401.

Sincerely,

D. DARLENE REICH

Re: Permit No. G-28481

Mr. Ernest Hogan,
Bancroft, Idaho.

Dear Mr. Hogan:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-28481. The proofs are to be made at 10:00 clock A.M., on the 15th day of July, 1964, before Jayson C. Holladay, 836 E. Center, Pocatello, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Caribou County Sun Soda Springs, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

POINT OF DIVERSION

Permit No. G-28481

Comes now Ernest Hogan and represents to the State Reclamation Engineer of the State of Idaho:

That he is (~~OWN~~) the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-28481.

That the point of diversion is described in said Permit as being located: In the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 13, T. 7 South, Range 39, E.B.M.

That he now requests that the point of diversion be changed to a point located: In the NE $\frac{1}{4}$ NE $\frac{1}{4}$, of Section 24, T. 7 South, Range 39, E.B.M.

That the reason for desiring to make such change is as follows:

It was discovered after exploration that the latter location was a better place for a well.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Pocatello, Idaho, this 7th day of October, 19 ~~62~~ 63.

Re : Water Permit of Ernest Hogan
No. G-28481

Dear Sir:

In March of 1960, Permit No. G-28481 was issued to Mr. Hogan. In his water explorations and drilling, it was decided to move the well a very short distance. It was also decided to use the water on a different area of land. I am enclosing a map showing the proposed changes and you will note that the land acreage is exactly the same as permitted in the original permit.

Would it be possible to amend our Permit No. G-28481 to conform to what is actually being done?

The enclosure will show you the position of the well as given in Permit No. G-28481, and the place where the well was actually drilled. It will also show you the land to be irrigated under the original permit, and where we would like to use the water.

Sincerely,

Dear Mr. Caldwell:

We acknowledge receipt of the application to appropriate 350 gallons per minute, or 0.78 cubic feet per second of subterranean water. The fee to accompany the application is \$5.00 which you should remit to this office at your earliest convenience. The application is not complete without the fee and the date of priority will depend upon date the fee is received.

Under remarks you show the applicant has a decreed water right in five drilled wells, totaling 1300 gallon per minute. We do not have a copy of the decree. Kindly send us the name of the case and date in order that we may obtain a certified copy from the County Clerk.
