Dear Mr. Treasure:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 0-27926. The proofs are to be made at 2:00 o'clock P.M., on the 1st day of October, 1962, before Wallace M. Tranter, Law Office, Soda Springs, Idaho, Notary Public.

As of this date we have mailed the Notice to the Caribou County Sun Soda Springs, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Re: Application for Permit

Mr. William Jean Treasure
Bancroft, Idaho

Dear Mr. Treasure:

Enclosed is your application for permit with attached check in the amount of \$5.00

There is some more information necessary before we can accept the application, and the check is not adequate for 1.6 cubic feet per second or 80 miner's inches of water. The fee is \$5.00 for the first cubic feet per second, plus \$0.25 for each additional cubic feet per second, or a total of \$5.25.

You have not answered Nos. 7, 8, 9, or 13 of the application. Answer to No. 7 would probably be well, pump and ditches. No. 8 would be the approximate or estimated cost of the works. No. 9 would probably be "No". No. 13 depends upon whether you receive the irrigation water from some other source than ^{the} well.

Domestic and stock water rights are always good for the entire year. State Statutes allow 13,000 gallons per day or approximately one miner's inch for such use. No amount need be shown on the application unless you would need a larger amount of water, such as would be necessary for a large feed lot.

Fill in the answers and return to this office with the filing fee of \$5.25 for the 80 miner's inches of water or reduce the amount of water to 50 inches and the \$5.00 would be sufficient.

Very truly yours,

GEO. H. CARTER
