Dear Mr. Jones:

Enclosed is the application for permit to appropriate subterranean water, for additional information, filing fee and additional map.

Question 13 - Existing water rights and/or valid permits appurtenant to the lands to be irrigated are _____ was not answered. "None" has been penciled in on account of "Remarks", however that should be verified.

The filing fee is \$5.00 for the first cubic foot per second of water filed on and twenty-five cents for each additional second foot or fraction thereof, making a fee of \$5.75 for 3.2 c.f.s.

Two maps are required, one of which will be returned with the permit, after approval and recording.

Regulations and instructions are attached for your information.

Very truly yours,

Re: Andrew Lester Hansen -- Water Application

Gentlemen:

This office prepared for Mr. Hansen an application to appropriate Subterranean Water upon the following described property:

NW $\frac{1}{4}$ SE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$
Sec. 21, T. 7 S., R. 39 EBM

the same was duly filed in your office and returned to me and I have been unable to locate the same in my files and Mr. Hansen has made a search of his records and is unable to locate the same.

I would appreciate very much if you could advise me by examining your records, the number of the application and possibly forward to me a copy of the information which was contained in the application.

Mr. Hansen has had the well completed since last spring and he desires to prove up his claim. Any help you might be able to render in this regard will be much appreciated.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. **G-27736**, in the name of ~~Andrew Lester Hansen~~. Final Proof is to be made before you, as Notary on the 24th day of April, 1961, ~~at~~ at 2:00 o'clock P.M., at 203 Central Bldg., Pocatello, Idaho.

As of this date we have mailed the Notice to the Soda Springs Sun with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Re: Permit No. **0-27736**

Andrew Lester Hansen
Bancroft, Idaho

Dear Mr. Hansen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Caribou County Sun, all submitted in proof of completion of works and beneficial use on Permit No. **0-27736**.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Permit No. G-27736

Proof of Application of Water to Beneficial Use

Deposition of Holder

and Completion of Works

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ✓ Andrew Lester Hansen, Farmer, Bancroft, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. None

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. ✓ G-27736, January 27, 1959, January 27, 1959

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean; SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 20, T 7 S, R 39 E.B.M., Caribou County, Idaho

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Sprinkler system; electric pump; 160 inches; water conducted by pipeline. Well is 90' deep, size of casing 16", 30 feet deep; depth to water 17 feet. Pump discharge is 160" measured by water engineers, Brown & Forbush of Grace, Idaho, and determined by number of bowls and size of bowls on pump. Operating pressure of sprinkler system is 70 lbs. per square inch; 132 nozzles 13/64ths inch in size.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water to be used for irrigation of SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 20, T7S, R 39 E.B.M., Caribou County, Idaho, 160 acres. The land is cultivated and has been improved from dry farming land to irrigated farming land.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Ivan Bortz, Declo, Idaho, drilled well.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Used for irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 160" or 3.2 cu. ft.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Same - original holder.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water has been used to irrigate land since well was drilled in February, 1959, during the irrigation season. 160" applied to land described in Question 6.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other water rights.

In re: Andrew Lester Hansen of Bancroft, Idaho

Dear Sir:

This office represents Mr. Hansen, who received an application for a permit to appropriate subterranean water from the State of Idaho, and thereafter the same was proved upon and the notices approved for completion of work published in the Caribou County Sun of Soda Springs, Idaho, in March of 1961. Since that date, Mr. Hansen has waited for the Field Engineer from your agency to check and examine said water works, but to date no examination has been made and no permit issued.

Mr. Hansen is a patient man, but feels that his application for a water permit is entitled to consideration and respectfully requests that your field engineer schedule the earliest possible date to make the necessary survey work, so that his permit can be obtained.

As you will be able to ascertain from your file, this matter has been dormant for approximately two years now and Mr. Hansen has requested us to seek your assistance in getting prompt action so that this matter can be completed. Like all other farmers, Mr. Hansen desires to be secure in the water rights which he has appropriated, and has become much more concerned about the same as other farmers in the area are drilling wells which could possibly affect the sub-

Department of Reclamation - page two - June 22, 1964

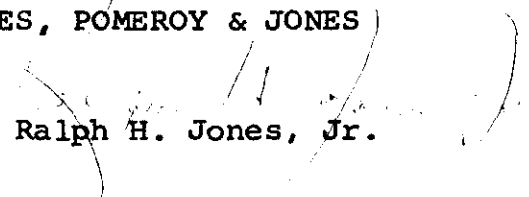

terranean water supply which he has heretofore secured.

Kindly advise by return mail when you feel that this matter can be completed, so that I can advise Mr. Hansen. Needless to say, failure to obtain these water permits for the farmers we represent in this area has caused considerable embarrassment to our office as clients, after they have proved up, cannot readily understand why they do not receive their permits.

Your earliest attention and consideration to this matter will be greatly appreciated.

Yours truly,

Attn: Ralph H. Jones, Jr.

Dear Mr. Jones:

We received your letter of June 22nd, in regard to lack of field investigation of works under Permit No. G-27736, as Mr. Hansen made the proofs in April, 1961.

Our records show that the location was visited at least once as there is a notation that the water system was used May 15 to June 1st. Our files do not show that Mr. Hansen has advised this office of the dates he will use the system this year.

I agree that Mr. Hansen is a patient man. It is regrettable that we do not have sufficient personnel to visit all locations in the state at the time they are using the water. Also, it is more regrettable that we cannot foresee the dates when the systems will be in use. I noticed similar notations on other reports for that location.

Advance notice of dates the systems will be in use would be appreciated. Our field men are generally out of the office for two weeks trips to save travel time and expense. Notice that the works were turned on would possibly not provide the necessary time to send a man to the place before the works were turned off for the season.

Very truly yours,

In re: Andrew Lester Hansen of Bancroft, Idaho
Permit No. G-27736

Dear Mr. Thomas:

Thank you for your letter of June 23, 1964.
After receiving your letter I can appreciate the difficulties that your field men experience.

If you or your field man would advise when you will be in the Bancroft area, I will make arrangements for Mr. Hansen to meet with him so that he can have an opportunity to observe the water system in its entirety in operation.

Kindly advise.

Yours truly,

JONES, POMEROY & JONES
