APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-27631

Comes now City of Pocatello and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-27631.

That the point of diversion is described in said permit as being located UPRR pipe line right of way, adjacent to Pocatello original townsite, Block #435 (Well #16).

That he now requests that the point of diversion be changed to a point located on Lots 11-13, Pocatello townsite, Block #371, a point approximately 1200' easterly from the location in G-27631.

That his reasons for desiring to make such change are as follows: New site is more favorable with existing need, and distributional grid, and is closer to proven strata of water.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Pocatello, this 5th day of May, 1960.

Re: Permit No. G-27631

J. E. Fuger, Water Supt.
P. O. Box 1352
Pocatello, Idaho

Dear Mr. Fuger:

We received your letter of November 3, in regard to production from wells No. 3 and 17.

The amount of water shown on a permit is only the maximum amount of water which can be allowed. The amount allowed on a water license is the amount of water used beneficially.

Well No. 3, amount claimed, 4.01 c.f.s. was check against the meter and found at least approximately correct and was approved. As 1.4 c.f.s. had been allowed on a previous license, only 2.61 c.f.s. can be allowed under this permit.

Well No. 17, amount claimed 3.11 c.f.s. is not metered, however the amount was checked against the size of motor and pump head. I believe 3.11 c.f.s. is a liberal amount. It is used to irrigate about 97 acres of land. Ordinarily we allow only 1.0 c.f.s. for each 50 acres of land, however, considering the use, the full amount, 3.11 c.f.s., was allowed, less 2.22 c.f.s. allowed on previous license.

I do not understand your question as to what procedure to use to correct the problem. Do you believe the wells produce more water than the amount allowed? The meter on Well No. 3 shows the amount pumped and computations for Well No. 17 shows the amount allowed is liberal.

Attention: J. E. Fuger

As per your request of November 17, 1964, we have changed your permit to read - amount filed on - from 31 cubic feet per second to 32.71 cubic feet per second and raised the amount of Well No. 3 from 1 cubic feet per second to 2.71 cubic feet per second.

This we were able to do as your Application No. G-35518 has not been signed or approved by the State Reclamation Engineer.

We are enclosing a claim against the City of Pocatello for fifty cents which is an excess fee over the \$12.50 paid when you filed the Application for Permit.

Will you see that we get this additional fifty cents right away as we wish to process your Application for Permit soon after November 26th.

Dear Mr. Tappan:

In regards to your letter of October 30, 1964, Well #13 as it appears under Permit No. G-24451 was allowed 2.22 C.F.S. This well was re-filed under Permit No. G-27631 as Well #17 with anticipated capacity of 5 C.F.S. Upon completion of works and field inspection of your engineer on Permit No. G-27631 a 3.11 C.F.S. amount was allowed.

Under Permit No. 20611 an amount of 1.4 C.F.S. was allowed for Well #3. In a letter written by Mr. Fuger dated Nov. 17, 1958, pertaining to Application No. G-35518, we asked for an additional amount of 2.71 C.F.S., making a total of 4.11 C.F.S. The reply letter dated November 19, 1958 showed where you gave us an additional amount of 1.31 C.F.S., for a total of 2.71 C.F.S. Had the additional amount of 2.71 C.F.S. been applied we would have a total of 4.11 C.F.S. Inclosed you will find a copy of each of these letters. Please inform us on the proper procedure to correct this problem.

Dear Mr. Fuger:

We received your letter of October 29 wherein you question the amount of water shown by the report of field inspection.

Well No. 17 in the SE¹/₄SE¹/₄, Sec. 1, T. 7 S., R. 34 E., B.M. appears to be the same as Well No. 13 under License No. G-24451 where 2.22 c.f.s. was allowed.

Well No. 3 in the Center of the NE¹/₄, Sec. 1, T. 7 S., R. 34 E., B.M. appears to be the same as Well No. 3 under License No. 20611 where 1.4 c.f.s. was allowed.

Total production of 19.25 c.f.s. less 3.62 c.f.s. noted above leaves 15.63 c.f.s. noted in our letter of October 28, 1964.

Kindly advise if we are in error in regard to the wells No. 3 and 17, and our records will be corrected.

Dear Mr. Tappan:

In regards to your letter of 10-28-64 on your Field Engineer's report on his inspection of proof of completion of Works and Application of Water to Beneficial Use under the terms of Permit No. G-27631. On our Notice of Proof of Completion of Works and Application of Water to Beneficial Use we applied for 20.58 C.F.S. Upon the completion of our inspection tour with Mr. Johnson, we were informed that Well #18 located in NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 15 T. 6 S. R. 34 E.B.M. would only produce 4.66 C.F.S. instead of the 5.57 C.F.S. that we had reported. Also the Well #19 located in NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 7 T. 6 S. R. 34 E.B.M. would only produce .8 C.F.S. instead of the 1.22 C.F.S. that we had reported.

That leaves us a total of 19.25 C.F.S. for the five wells. In your letter you have a total of 15.63 C.F.S. We would appreciate any information that you might have for the difference of 3.62 C.F.S.

Thank you,

J. E. Fuger

Dear Mr. Webb:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Idaho State Journal, all submitted in proof of completion of works and beneficial use on Permit No. G-27631

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Gentlemen:

We received the copy for proofs on the above numbered permit and find the following corrections:

On lines 7 and 8, Paragraph 4, T. 75, R. 34 W., should read T. 7S. This mistake is made on both lines.

When correction has been made we would appreciate another copy for our files.

Thank you.

Pocatello, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 0-27631. The proofs are to be made at 2:00 o'clock P.M., on the 25th day of November, 1963, before Bert Reese, 209 East Lewis, Pocatello, Idaho, Notary Public.

As of this date we have mailed the Notice to the Idaho State Journal Pocatello, Ida., with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

W. B. Webb, City Mgr.
City of Pocatello
Pocatello, Idaho

Dear Mr. Webb:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 27631 are due not later than Dec. 9, 1963

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36,

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-27631

RECEIVED
MAY 6 1960

Department of Reclamation

Comes now City of Pocatello and represents to the State
Reclamation Engineer of the State of Idaho;

That he is the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-27631.

That the point of diversion is described in said permit as being
located UPRR pipe line right of way, adjacent to Poca orig. townsite
(Well # 16) Block #495

That he now requests that the point of diversion be changed to a
point located on lots 11-13, Pocatello townsite Block # 371, a point approx.
1200' easterly from the location in G-27631

That his reasons for desiring to make such change are as follows:
New site is more favorable with existing need, and distributional grid,
and is closer to proven strata of water

That no one will be injured by such change, and that such change
will be made at Permit Holder's own risk.

Dear Sir:

We were in error on the location of the Turner Well referred to in our letter of September 17, 1958.

We requested that your office check to see if the Turner Well in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 1, T7S, R3E BM had been previously filed on. The correct location of this well is in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 1, T7S, R3E BM.

We are sorry that the correct location was not given to you before and trust that we have not inconvenienced you.
