Dear Mr. Tydeman:

We are returning your check to the amount of \$15.00 in connection with the Application for Permit to Appropriate the Subterranean Waters of the State of Idaho, in the name of Harry Hart.

The correct filing fee for 4.0 cubic feet per second of water is \$5.75, based at the rate of \$5.00 for the first second foot and \$.25 additional for each second foot or fraction thereof, making the correct filing fee of \$5.75.

Please substitute your check to the amount of \$5.75, which is the correct amount required, and upon receipt of same, we will process the application.

Dear Mr. Tydeman:

This office does not require affidavits of compliance with the requirement that work should start within 60 days of approval on permits to appropriate surface water or the requirement that one fifth of the work shall be completed in one half of the time allowed for full completion of work on all permits. See Idaho Code 42-301 to 305 inclusive.

Proof of completion of works must be made by the due date as shown on the permit, or within a limited time thereafter. See Idaho Code 42-311 and 42-234.

Proof of beneficial use of the water does not necessarily have to be made on the due date, however the date of priority is advanced the same length of time the proofs are late. See Idaho Code 42-219.

This office will file any acceptable material pertaining to a permit which is sent for that purpose.

Dear Mr. Tydeman:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27274, in the name of Harry Hart. Final Proof is to be made before you, as Notary on the 19th day of April, 1962, ~~except~~ at 10:00 o'clock A.M., at 224 Dietrich Bldg., Idaho.
Pocatello,

As of this date we have mailed the Notice to the Idaho State Journal, Pocatello with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Mr. Tydeman:

Returned herewith are the depositions, statement from the paper and two affidavits of publication in regard to above noted permit. Also enclosed are amendment forms and a relinquishment of permit form.

Permit No. G-27274 shows point of diversion in NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 1, to irrigate SW $\frac{1}{4}$, Sec. 1; SW $\frac{1}{4}$, Sec. 2, T. 6 S., R. 31 E., S. 1.

Permit No. G-27277, in the name of T. & T. Farming Co., point of diversion in NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 1, T. 6 S., R. 31 E.

The Holder's deposition question 6 does not show the land irrigated, however the witnesses show land irrigated not included in the permit.

All depositions show the well in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 1, the location proposed in Permit No. G-27277. Possibly the location is shown in error.

The permit must show the actual point of diversion and land list as irrigated before the Water License can be issued. Kindly complete the amendment or amendments necessary and return to this office with the recording fee of \$1.00 for each amendment. The Holder should complete answer to question 6.

The amendment to the point of diversion can be approved without change in priority, provided you furnish written permission from the T. & T. Farming Co., or the Company relinquishes their permit by completing the enclosed form.

Otherwise the priority would have to be changed to May 31, 1962, the first date we received notice of the change in location of the well.

Kindly return Depositions of the Holder and two witnesses, one copy of affidavit of publication and necessary amendment and relinquishment. The statement from the paper and extra affidavit of publication is for the applicant's file.

Re: Permit No. G-27274
Harry Hart

Gentlemen:

I received your letter of June 1st and wish to thank you for the same.

Mr. Hart was in this morning and we went over the papers. We find that the point of diversion is correct as set out in his Permit No. G-27274 and that a typographical error was made in the Depositions. We have corrected this in the Depositions and are now returning the papers for your further consideration.

If there is anything further to be done, please let me know.

Very truly yours,

F. E. Tydemar (RB)

Dear Mr. Hart:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Idaho State Journal, all submitted in proof of completion of works and beneficial use on Permit No. G-27274.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Sir:

In your letter of June 12, 1962, you advised Mr. Hart that before final action was taken on his water right, the law required that a field examination be made by an engineer from your department.

Mr. Hart called me on the telephone this morning and inquired about the matter and advised me that the field examination had not been made.

If there is anything further for us to do in connection with this matter, I would appreciate having you let me know.

Thanking you for your consideration of this request, I beg to remain,

Dear Mr. Tappan

Answering your letter of September 4, 1963 in which you enclosed an amendment of the description of the land of my pumping land, I find on checking there is an error in the amendment. The E² - SW⁴ Sec. 2 - T6S - 34E BM. adjoins my land on the west, but does not belong to me.

I am enclosing a map of the land I am pumping on which should be accurate as it was checked by the Bannock County Agriculture office and also the Assessor office.

The former permit description is B.K. - SE⁴ Sec. 2, - SW⁴ Sec. 1 - T6S - R34E BM, but I would like to include - the W² - NW⁴ SW⁴ Sec. 1 - T6S. - R34E.B.M.

This is the land that your field examiner inspected. The 66 acres is in the W² - SE⁴ Sec. 2 T6S. R34E.B.M. and is west of the Interstate #15 Road.

Hoping this will clear the matter.
