Dear Mr. Anderson:

Returned herewith are the two Forms 36 and Form 11 we received today.

We believe that you are referring to Permit No. G-26814. The number 2515 you show was a receipt for fees. Under 4 you should show the location of the well in a 40-acre subdivision. Our copy of the permit shows the well in Lot 4 (SW1/4SW1/4), Sec. 18, T. 6 S., R. 35 E. The land to be irrigated is SE1/4SE1/4, Sec. 13, T. 6 S., R. 34 E. and NW1/4SW1/4, SE1/4SW1/4, Sec. 18, T. 6 S., R. 35 E. Possibly you are irrigating only the land in Lot 3 (NW1/4SW1/4), Sec. 18.

Kindly check and correct the legal notice, Form 36, and return all forms at your earliest convenience. The date for making the proofs will probably have to be advanced.

Very truly yours,

Re: Permit No. G- 26814

Date: January 3, 1962

Dwaine W. Anderson,
Pocatello Creek Rd.,
Pocatello, Idaho.

Dear Mr. Anderson:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-26814 are due not later than March 22, 1962.

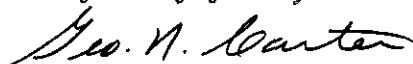

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.
