Dear Mr. Rasmussen:

The amount of water cannot be increased on a permit. The land list can be changed.

Enclosed are forms for amending the land list and Form No. 3, application for permit to appropriate subterranean water.

Mr. Hogan can amend his land list to include the additional land on Permit G-26808, and also file an application for permit to cover the same land which would give all the land the same priority or leave Permit G-26808 as it is and file application only on the additional land.

Dear Mr. Transtrum:

In reviewing our letter of September 13, 1965, we find it was erroneous. You cannot transfer a water right to include additional ground. Both permits are required to complete Mr. Hogan's rights from the well to cover all the ground as you indicate.

Since permit G-28033 has not been examined we cannot tell how much water can be allowed for the license. We will try to have our engineer examine the works and measure the flow during this irrigation system.

If you will please disregard our letter of September 13, 1965 and forward the fees in the amount of \$17.00 we will issue a license for permit G-26808. Upon completion of the examination on permit G-28033 we will forward another fee letter.

We are sorry for the confusion caused by our previous correspondence.

Gentlemen:

Re: A. Nelson Hogan, Bancroft, Idaho
Permits G-26808 and G-28033

Would you kindly give me the assistance of your office in attempting to unscramble the two referenced permit numbers and the respective water rights, since I am unable to completely coordinate the two from the matters of record in my file.

My file shows that G-26808 was issued for 3.9 c.f.s. with a priority date of March 11, 1957, and that G-28033 was issued for 3.2 c.f.s. with a priority date of July 17, 1959. Both permits pertain to the same well, but have not yet been completed according to my records.

Apparently, part of your correspondence was directed to Mr. Hogan at Bancroft, Idaho, and has not been furnished by him to my office and we are at this time unable to coordinate your letter of September 13, 1965 with some earlier correspondence referred to therein.

Referring to your letter of September 13, 1965, I am unable to understand the reason for reducing the water right under G-26808 and relinquishing G-28033 since it is necessary that both of these issue to complete the water rights on Mr. Hogan's well. It may also be that I misunderstood the proposals of your department and would appreciate your assistance in straightening this matter out.

Very truly yours,

Wallace M. Transtrum

Dear Mr. Transtrum:

Your letter of September 22nd, is in error in that Permit No. G-26809 showed diversion in ~~SE~~SE~~1~~4, Sec. 36, T. 6 S., R. 38 E., B. M. and was cancelled.

My letter of September 13th does show fees to be paid, however copy of letter of July 27, 1964 is enclosed.

If Mr. Hogan does not relinquish Permit No. G-28033 we will have to send him a pre-cancellation notice.

File Permit No. G-26808 shows he requested form to amend the permit however we have no record of it being filed.

Of course part of water 3.92 c.f.s. under G-26808 could be used under G-28033 or complete Form 20, Transfer of Water Right G-26808 for land shown under G-28033 for the earlier water right.

Dear Mr. Hogan:

Enclosed are forms to relinquish a permit and a form to change the place of use of a licensed water right.

We have the report of the examination of your works under Permit No. G-28033. The report shows you have the same equipment in use as under Permit No. G-26808.

You were notified by letter dated July 27, 1964 that upon receipt of \$17.00 fees the certificates of water right No. G-26808 would be issued for 3.92 c.f.s., priority March 11, 1957, from a well in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 9 for irrigation of 240 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 8; SW $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 9, T. 7 S., R. 39 E., B.M. The amount of water can be reduced to 2.35 c.f.s. under this water right and we can issue certificates of water right for 1.57 c.f.s., priority July 9, 1959, from the same well for irrigation of the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 4; SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 5; NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 8; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 9, T. 7 S., R. 39 E., B.M. upon receipt of \$13.00 fees making total fees due \$30.00.

You can relinquish Permit No. G-28033, pay the \$17.00 fees for certificates No. G-26808 and upon receipt of the License and Certificate of Water Right complete the Form 20 enclosed and file in this office. We will prepare a short legal notice for publication in a Caribou County paper, publication to be at your expense. File the Affidavit of Publication in this office with \$1.00 fee. The cost of this procedure will be about \$10.00 plus the notary fee, and you hold the earlier priority for all of the water.

Kindly reply promptly. Failure to pay the fees due is cause for cancellation of a permit.

Dear Mr. Hogan:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Caribou County Sun, all submitted in proof of completion of works and beneficial use on Permit No. C-26808.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Hogan:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26808. The proofs are to be made at 10:30 o'clock A.M., on the 17th day of November, 1960, ~~XXXXX~~ before F. J. Rasmussen, Soda Springs, Idaho, Notary Public.

As of this date we have mailed the Notice to the Caribou County Sun with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Mr. Rasmussen:

We acknowledge receipt of two Applications for Permit in the name of A. Nelson Hogan, one filing on 5.0 cubic feet per second and the other filing for 3.0 cubic feet per second.

It is necessary that we cut the amount filed on in the one permit from 5.0 c.f.s. to 4.8 c.f.s. to comply with the one-inch-per-acre regulation.

The fee for filing on the 4.8 c.f.s. is \$6.00 and the fee for filing on 3.0 c.f.s. is \$5.50, making a total of \$11.50 for the two applications.

Upon receipt of your check for \$11.50 we will proceed with processing same.
