Dear Madam:

This department does not make regular measurements of the depth of wells. The depth to water is measured at the time of inspection for beneficial use of the water, whenever the measurement is possible.

The Underground Water Branch of the U. S. Geological Survey makes regular measurements of observation wells over the state. We do not have a report in our files of any wells in your vicinity.

Enclosed are form for amending the place of use of water under Permit and receipt for \$5.25 filing fee of application for permit.

Your recent application for permit to develop 1.1 c.f.s. of subterranean water is in order except there is some question of the place of use as described in your application and in Permit G-26702, and the maps were not included, but received in later mail.

Your two wells will probably be interconnected as well as any future wells that may be necessary. The area covered by your water system will probably expand in the future.

As a suggestion, the point of use in Permit G-26702 and your present application could be changed to read Village of Chubbuck and vicinity in Sections 2, 3, 10 and 11, Township 6 South, Range 34 East, B. M.

The application for permit can be changed in this office, on your request. Permit G-26702 can be changed, prior to issuance of the Certificate of Completion of Works and License and Certificate of Water Right, if you complete the form enclosed.

Kindly send a prompt reply ~~including the maps~~ to avoid undue delay in approval of your application for permit.

Dear Mr. Davis:

We acknowledge receipt of the Deposition of Holder and two witnesses, also Affidavit of Publication in the Idaho State Journal, all submitted in proof of Completion of Works and Application of Water to Beneficial Use on Permit No. G-26702.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Attention: John Valenty, Chairman
Village Board of Trustees

Dear Mr. Valenty:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use on Permit No. G-26702, in the name of Village of Chubbuck. Final proof is to be made before you, as Notary, at 11:00 A. M. on the 25th day of May, 1959, at Chubbuck, Idaho.

As of this date we have mailed the Notice to the Idaho State Journal, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed on behalf of the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date, and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

On February 24, we sent you a pre-cancellation notice for Permit G-26702 allowing 60 days or to April 24th to show cause before the State Reclamation Engineer why the permit should not be cancelled.

Your application for extension of time, signed April 10 cannot be approved on account of lapse of time.. You can save your permit by prompt action in completing and sending to this office, the notice of proof of completion of works and beneficial use of water. The notice will have to be in this office by April 24, 1959.

We have not received the \$1.00 fee for the copy of the permit sent you January 15th. Please remit.

Very truly yours,

GEO. N. CARTER

Dear Sir:

Referring to notice dated February 24 to the effect that since proof of completion of work and beneficial use under permit #G-26702 were not made prior to January 21, 1959, the permit is held for cancellation.

On January 14, I wrote you stating that the permit had been mislaid and therefore the data necessary for publication of notice was not available. In that letter a copy of the permit was requested and also requested an extension of time for submitting the required proofs.

The data from the permit needed for preparing the notice of intention to submit proof is contained in your notice of February 24. If you would therefore please send us the necessary blank forms on which to make application for extension of time to submit proofs, it will be returned to you at once.

Very truly yours,

RE: Permit No. G-26702

Date November 24, 1958

Village of Chubbuck (Chubbuck)
Pocatello, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-26702 are due not later than January 21, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

State Reclamation Engineer
