We wish to advise you, however, that the Department has no procedure for changing the records of ownership once a permit has been licensed. When a license is issued, it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is specifically withheld in the sale transaction.

Re: City of Pocatello

Gentlemen:

Please be advised that the City of Pocatello, a municipal corporation of Idaho, has entered into an agreement for the acquisition of certain real property within the corporate boundaries of this City upon which is located a well developed by Pocatello Creek Development, Inc.

This well is identified by License No. G-26676, issued on December 21, 1956, in the amount of 3.82 C.F.S. Certificate of Completion was issued June, 1962 and recorded October 11, 1962 in Book 12 of Licenses at page 7488.

In taking title to the real property upon which said well is located, I request information as to proper assignment of the rights of the developer to the City of Pocatello in order that these rights may be protected when incorporated into the municipal water system. If you have such assignment forms acceptable by your Department, would you please forward copies to this office for completion, execution and return. Your assistance in this matter will be sincerely appreciated.

Very sincerely,

Loan #140201 - Pocatello Creek Development Co.

J. W. Marshall, Assistant Loan Agent
John Hancock Mutual Life Insurance Company
Box 29
Idaho Falls, Idaho

Dear Mr. Marshall:

Your letter of the 18th regarding the subject matter received.

Our records disclose that A. Y. Satterfield et al assigned Permit G-26676 to Pocatello Creek Development Co. on April 13, 1962. This company amended this permit's land list on May 10, 1962 to read:

NE¹₄, Sec. 12, T. 6 S., R. 34 E., B.M.; and Lots 1 and 2 and E¹₂NW¹₄, Sec. 7, T. 6 S., R. 35 E., B.M., a total of 320 acres.

This land is included in the land list attached to your letter but we have ^{no} other permits or records concerning Pocatello Creek Development Co.

If Mr. Satterfield, as President of Pocatello Creek Development Co., wishes to include additional lands he must make amendment to the land list. We are enclosing forms for that purpose.

We are returning the certificate completed from data on record ^{as} of this date.

We trust this is what you want.

Very truly yours,

Re: Loan #140201 - Pocatello Creek Development Co., Inc.

Dear Mr. Petri:

We have completed a loan with the Pocatello Creek Development Company, Inc. and have been trying to get the water permit from them, but they seem to be unable to locate the permit itself.

Would you, therefore, be good enough to complete the enclosed certificate form, which we use. The property, which we have mortgaged is described on the photostatic copy attached.

We realize that this is possibly going beyond what your office is expected to do, but we certainly do appreciate your completing these forms for us in only the cases where it is absolutely necessary to get the information. For your convenience in reply, we enclose herewith self-addressed, stamped envelope. We thank you again in advance for this courtesy.

With personal regards, I am

Yours truly,

Re: Permit No. G-26676

Gentlemen:

On June 25th, 1962, we received notification from your office of acknowledgment of receipt of the depositions of holders and affidavit of publication on well permit above numbered. Subsequently, about two weeks ago, we talked to the field engineer who was here in Pocatello and he was examining the premise for the field examination. We have not yet heard from your department with the information on the final permit. We would appreciate your earliest action as copy of said permit is needed in handling a mortgage on the area.

Thanking you in advance for your courtesy and consideration, we are,

Sincerely yours,

Dear Mr. Satterfield:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Idaho State Journal, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Permit No. G-26676

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. George Glen Pieper Age 41 Years Pocatello, Idaho
Farming, Heating & Refrigeration Service, Welding, etc.

Ques. 2. Are you acquainted with Pocatello Creek Development Co., the holder of Permit No. G-26676? How long have you known him and where does he reside?

Ans. Yes, acquainted with the Corporation and officers for many years.
Their residence and office is in Pocatello, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-26676, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Underground well - Place of diversion is in NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 12, T6S, Range 34, East Boise Meridian. There is a 250 HP pump and an aluminum sprinkling system that has been operating at least 2 $\frac{1}{2}$ years.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I understand about 7 sec. feet and they are irrigating about 250 or more acres.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I was acquainted with the tests and with the area watered - tests showed 1800 to 2100 gal. per minute.

200070

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Use is for irrigation with sprinkler system on potatoes and grain.
For at least 2 years this has been for 250 or more acres. Area sprinkled runs in NE¹/₄ Sec. 12, T6S, Range 34, EBM. and Lots 1 and 2 and East ¹/₂ of NW¹/₄ Sec. 7, T6S, Range 35, EBM.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No power.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land lays on slight slope to East and is excellent farming land.
Water required for land would be 1700 to 1900 GPM.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. For past two years (1960 and 1961) have known and observed the farming operation and sprinkling system operating. Potatoes were grown on most of sprinkled land last two years. Plenty of water has been available by all appearances.

Re: Permit No. G 26676

Dear Sir:

We thank you sincerely for forwarding your recent letter with respect to permit No. G 26676 above shown, and we find that in making the Notice of Proof of Completion of Works that a typographical error was made in describing the point of diversion. This point of diversion is in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 12, as shown in the attached Form 36 in duplicate. Therefore, the legal notice sent prior was not correct, and we resubmit here authorization to publish in duplicate.

Also submitted herewith is Application for Amendment of the Land List of the lands to be irrigated. We enclose herewith our check for \$1.00 for filing of this amendment.

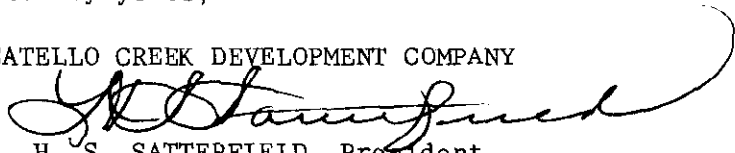

We therefore, return herewith Form 36, Form 11 and the Amendment as shown.

We trust that this will complete the papers needed. If however, there is anything else needed, kindly let us know at once.

Our regrets for this mix-up and we are sorry that we did not understand it thoroughly. Kindest wishes, ever.

Sincerely yours,

Dear Mr. Stephenson:

Returned herewith are the two Forms 36 and Form 11 we received today. Also enclosed are two blank Forms 36, and amendment forms.

We approved an amendment to the point of diversion March 9, 1962 to change from SW1/4, Sec. 11 to NW1/4, Sec. 12, T. 6 S., R. 34 E. The legal notice shows the NW1/4, Sec. 12. In case the legal notice is correct, another amendment to the point of diversion will be necessary.

We have no record of an amendment to the land list. The permit shows land in Section 11 and 12 whereas the legal notice shows lands farther east. An amendment to the land list will be necessary.

Kindly complete the blank forms 36 showing a date on the first line about 40 days later than the return of the forms. Also complete the amendments, as necessary, and enclose a fee of \$1.00 for each amendment.

Return the completed forms 36, 11 and amendments at your earliest convenience.

Dear Mrs. Rule:

We are sorry indeed that the Notice of Publication and the Authorization to Publish on the above numbered permit was completed, but we find it still in our file. We thought surely that this had been returned to you with the other papers.

Now, we return two copies of the Application of Water to Beneficial Use form No. 36 and Form No. 11, Authorization to Publish. This Authorization is signed by the Pocatello Creek Development Co. who has had this property assigned to them per Assignment sent to your office, March 13, 1962, assigning from A. Y. Satterfield, E. H. Berrett and Lawrence T. Dahl to the Pocatello Creek Development Co.

Now, if this does not complete the requirements necessary, please let us know at once, and we will complete whatever is required and get it to you immediately.

Again, may we say we are sorry for this overlooking of forwarding these papers on to you and desire to get this publication and legal clearance made without further delay.

Dear Mr. Stephenson:

On March 20th an assignment was mailed to you on the above numbered permit.

On March 5th, we returned the notice of publication and authorization to publish to Dahl, Berrett and Satterfield for correction of the legal description of all the land to be irrigated. This has not been returned. As they had been mailed a pre-cancellation notice on February 21st, this permit is due for cancellation.

We are enclosing Form 36 in duplicate and Form 11 authorization to publish, and ask that it be returned immediately for publication. If we do not hear from you by the 10th of May this permit will be cancelled.

That ~~the~~ is (are) the owner s and holder s of Permit to appropriate the Public Waters of the State of Idaho, No. G26676.

That the point of diversion is described in said Permit as being located:

SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 11, Twp. 6 S., Rge. 34 E.B.M.

That t he s now requests that the point of diversion be changed to a point located: NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 12, TWP 6 S., Rge. 34, E. B. M.

That the reason for desiring to make such change is as follows:

Well was drilled sometime ago in changed location - was unaware that change was not made in Point of Diversion. ~~Assignment was subsequently made to POCA TELLO CROWN DEVELOPMENT COMPANY, Inc. of Pocatello, Idaho but overlooked making assignment application to reclamation Dept. which we desire to do now.~~

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Re: Permit No. G-26676

Dear Sir:

We thank you very much for forwarding the information with respect to the amendment to the point of diversion pertaining to the above numbered permit. We are sorry for this mix-up, however, we were not aware that the original permit was in the wrong described location until brought to our attention within the last week or so. Mr. A. Y. Satterfield and Mr. Berrett are both members of our firm, and at the time that the original permit was applied for, Mr. L. T. Dahl was also with us. We thought that an assignment had been made but discovered that this has not been done since this permit and well was signed and taken over by the Pocatello Creek Development Company, a corporation for development which we handle out of this office.

Enclosed herewith is the Application for Amendment of Point of Diversion changing to NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 12, TWP 6 S., Rge. 34, E.B.M.

We would appreciate it if you would return to us immediately two or three forms for assignment of permit. We will have these signed immediately by the three parties assigning to the Pocatello Creek Development Company and thus put this permit where it should be.

We understand Mr. Carter is ill; would appreciate getting the priority set if at all possible under its previous date, although there are no more wells drilled or being contemplated to our knowledge in that immediate area at the present time.

Thank you for your consideration, and please let us know if there is anything else necessary to set this permit up properly.

Our kindest wishes.

The amendment can be approved however it may be necessary to change the date of priority under the permit to March 1, 1962, the date we received your letter. A move of over one mile in point of diversion is probably changing the source of the subterranean water.

Dear Mr. Satterfield:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- ~~see~~ are due not later than **January 9, 1962** ~~above~~

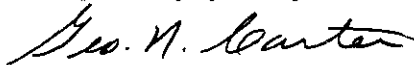

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Dear Mr. Tirrell:

Enclosed are copies of 3 well logs filed by Glenn L. Hopkins. Also enclosed is departmental receipt No. G-5295 in the amount of \$3.00 for the fee for making copies of the logs.

Records in this office show that the above mentioned permits were filed by A. Y. Satterfield, L. T. Drake and E. H. Barrett.

Permit No. G-26675 calls for 6.4 c.f.s. of water, with point of diversion in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13 for domestic use and irrigation of 320 acres in the S $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 12; N $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ of Section 13, Township 6 South, Range 34 East.

Permit No. G-26676 calls for 7.0 c.f.s. of water, with point of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 11 for domestic use and irrigation of 320 acres in the N $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ of Section 11; N $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 12, Township 6 South, Range 34 East.

Permit No. G-26679 calls for 4.8 c.f.s. of water, with point of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, for domestic use and irrigation of 235 acres in the NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 14, Township 6 South, Range 34 East. You will note that while the application shows the well to be in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, the log shows it to be in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14.
