

29-2376 G-26433

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Sta. #9

Application No. G-34357
Permit No. G-26433
District No.

Morriss C. Foster
Fish Northwest Constructors, Inc.
Box 1002
Salt Lake City, Utah

1. Name of Applicant: PACIFIC NORTHWEST PIPELINE CORPORATION
Postoffice address: P. O. Box 1002 Salt Lake City County: Salt Lake State: Utah
2. Quantity of water claimed: 1/9 cu. ft./sec.
 - (a) Rate of withdrawal in cubic feet per second. .1112 or Idaho
Miners' inches 5.56 or gallons per minute. 50
 - (b) Annual withdrawal in acre feet per annum 81.11
3. Source of water supply: Subterranean from well
4. Location of point of diversion or well is in the NW 1/4 of the NE 1/4 of Section 15
Twp. 7 S. , Rge. 32 E. , B.M., County of Power
5. Water is to be used for: Domestic and industrial
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the NW 1/4 of the NE 1/4 of Section 15 , Twp. 7 S.
Rge. 32 E. , B.M
 - (b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.
7. Kind of works: Drilled, cased well, pump and motor. 300 ft. depth.
8. Estimated cost of works: \$ 4,000
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 2 years.
11. If applicant is a corporation, give: See attached Balance Sheet
 - I. (a) Date and place of incorporation: June 2, 1949 - Delaware
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Agent.

Date of first receipt at Department of Reclamation: 4:15 P. M. July 6, 1956.

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G-26433

Recorded in Book 93 Page 26433 Approved July 25, 1956.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before September 25, 1956, and to continue diligently and **uninterruptedly** to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before July 25, 1957,

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before July 25, 1958,

Witness my hand this 25th day of July, 1956.

MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYLLIE, Governor of the State of Idaho,
and JAS. H. YOUNG, Secretary of State of the State of Idaho, have caused this instrument to
be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 25th
day of July, 1956.

Countersigned:

Boise, Idaho

Attention: Mrs. Edna P. Rule, Chief Clerk

Dear Mrs. Rule:

Re: Permit No. G-26433

Enclosed herewith is the completed Well Log and Report to the State Reclamation Engineer Form on the captioned permit for both the original well and the deepening. All the work was done by the same contractor, Mr. George Vollmer.

The second figure under "depth to standing water from ground" is for the deepened well.

Yours very truly,

A. H. Viescas

RE: Permit No. G-26433

A. H. Viascas, Supervisor Engineer
El Paso Natural Gas Company
Box 1492
El Paso, Texas

Dear Mr. Viascas:

In response to your letter of July 27, 1964 we are enclosing two log forms and two second sheets.

If Mr. Vollmer did not drill the original well it will be preferable to have each driller fill in the log for his part. If Mr. Vollmer did all the drilling it can be on one log, indicating on the log the original dates and depth, and the depth of the deepened well and the dates the work was done.

To be authentic the logs should be signed by the licensed driller who supervised the work.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Dear Mr. Thomas:

Re: Permit No. G-26433

We have a record of the original well log on the captioned permit in our files, but it is not on the official state forms. If you will be so good as to send me some of these forms, I will furnish you all the information we have.

Please advise if it will be all right to submit the log for the original work and the deepening on one form and if the form must be signed by the well driller.

A copy of the license issued to Pacific Northwest Pipeline Corporation is enclosed. This Corporation was acquired by El Paso Natural Gas Company.

Yours very truly,

A. H. Viescas

July 15, 1964

Mr. Ralph Thomas
Deputy State Reclamation Engineer
Boise, Idaho

Dear Mr. Thomas:

Re: Water License No. C-26433

Please be advised that the water well under the above-captioned license was deepened last year to a depth of 461 feet. This work was done by Mr. George Vollmer, Route 1, American Falls, Idaho; and we presume he filed the required well log. If this not the case, please let us know and we will see that one is filed.

The formation drilled was moderately hard sandstone with gravel stringers, and a 6 5/8" slotted line was set from 311 to 461 feet. The original pump was reinstalled, and no more than the licensed 0.08 cfs is being used.

Yours very truly,

A. H. Viescas
Supervisor Engineer

Permit No. G26433

Proof of Application of Water to Beneficial Use

and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. H. A. Jacobs, Division Manager, No. 9 Bistline Bldg., 417 E. Center St.
Pocatello, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf. Pacific Northwest Pipeline Corp., Salt Lake City, Utah

Ans. Division Manager, Acting as authorized agent for said corporation.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G26433 dated July 25, 1956 → 7-6-56

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well located in NW $\frac{1}{4}$ of NE $\frac{1}{4}$ Sec. 15 T7S R32E, Power County Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Depth of Well 358 ft.

Depth of Casing 316 ft.

Size of Casing 8-5/8" O.D. x .277" W.T.

Depth to Water 248 ft.

Discharge of pump 34 gals per min.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic use in houses occupied by employees and Industrial use for cooling
purposes in operating a Natural Gas Compressor Station.

G26433

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Domestic and Industrial

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 750 Gals. per day.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Continuously since October 14, 1955 at the rate of 750 gals. per day.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

BOISE, IDAHO

Permit No. G 26433

Proof of Application of Water to Beneficial Use

Deposition of Witness

and Completion of Work

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. CLINTON W. HARWOOD - 43 years of age - American Falls,
Idaho.

Ques. 2. Are you acquainted with PACIFIC NORTHWEST PIPELINE CORPORATION, the holder of Permit No. G 26433? How long have you known him and where does he reside?

Ans. Permit holder is a corporation.

Ques. 3. Have you read or heard read said Permit No. G 26433, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well. located in NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 15, T.7S, R 32 E, Power Co., Idaho. Total depth 358 ft. Pump with discharge rate of 34 gal./min.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. .07562

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 34 gal. per minute. Visual observation.

826433

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic use in houses occupied by employees and Industrial use for cooling purposes in operating a natural gas compressor station all located on the NW¹/₄ NE¹/₄ of Sec. 1 S, T 7 S, R 32 E, Power County.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Domestic use in houses occupied by employees and Industrial use for cooling purposes in operating a natural gas compressor station all located on the NW¹/₄ NE¹/₄ of Sec. 1 S, T 7 S, R 32 E, Power County.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Not applicable

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. 1 hour in 1955.
