Re: Beneficial use made from J. R. Simplot Company,
Pocatello, Idaho, deep-water wells

Dear Ms. Brown:

I appreciate your answer to my earlier letter. However, I have been unable to spend time in Boise as I originally thought possible.

The J. R. Simplot Company, located west of Pocatello, Idaho, in Power County, has indicated that they have three deep-water wells on the property from which they draw their water. An approximate legal description would find those wells in the SW¼ of Section 7, Township 6 South, Range 34, E., Boise Meridian.

What we are interested in is identifying the amount of water that may be pumped from each well for beneficial use for the J. R. Simplot Company. If you do not have ready access to that information, could you identify some state office in the vicinity of Pocatello that may have such information.

Thank you for your assistance.

Sincerely,

BOYD B. WHITE
