Dear Sir:

Toward the last part of 1958 you forwarded to Mr. and Mrs. Argyle of Bancroft, Idaho, a certificate showing that they had perfected their right to 200 miners inches of water on the above numbered permit.

We would appreciate very much if you would review this file. You will note that in their application to appropriate subterranean waters that they requested 440 cubic inches of water to irrigate that certain 440 acres described in said application.

I am advised by the Argyles that the well which they subsequently drilled has several times that capacity to enable them to irrigate said farm. Therefore, I would appreciate it very much if you would give this matter your immediate attention and write me concerning the same at your earliest convenience.

Yours very truly,

We are returning the Depositions of Proofs in the name of Delbert K. Argyle and Dora B. Argyle in connection with the above captioned permit for the following reason.

The depositions are in good form, however the witnesses inadvertently signed each others depositions.

We would suggest that perhaps the contents of the depositions could be changed to fit the signature as they are in the proof, without sending them back to the witnesses for resigning.

We could have made the correction in this office, however, we do not change the wording of any depositions that come into this office.

Please correct and return to this department.
